The following grading scale is in use for this course:

- A = 90.00-100 points
- B = 80.00-89.99 points
- C = 70.00-79.99 points

Teaching Strategies
Students are expected to be “active learners.” It is a basic assumption of the instructor that students will be involved (beyond the materials and lectures presented in the course) discovering, processing, and applying the course information using peer-review journal articles, researching additional information and examples on the Internet, and discussing course material and clinical experiences with their peers.
Assignment and Activity Descriptions
Research Proposal

This group of assignments fosters understanding of the basic information necessary for the consumption and utilization of research in generalist social work practice and the process of research used in practice and program evaluation (e.g., the analysis, monitoring, and evaluation of interventions in a particular program).

Students will be assigned to small groups at the beginning of the semester with which they will collaborate throughout the semester to produce a research proposal and presentation. The steps of the process are detailed in group-based assignments that are conducted during class sessions. Each individual group assignment will be graded as will the final paper and presentation.

The proposal will include the following structure:

I. Introduction
   A. Description of the research problem/issue to be explored
   B. Purpose of the proposed research study and its rationale
   C. The context: theoretical/historical perspectives of the research problem

II. Relevant Literature Review
   A. A review of relevant literature
   B. Statement of the research question and the hypothesis (must contain BOTH)

III. Evaluation Methods
   A. Design
   B. Procedures
   C. Description of sample to be studied
   D. Sampling strategy
   E. Instrumentation

IV. Proposed data analysis (must include proposed method of analysis)

V. Expected Findings

VI. Discussion
   A. Contributions to existing knowledge
   B. Limitations of the proposed methodology

VII. References

VIII. Appendices (if required)
**Doing the minimum page requirement will result in a minimum grade. Example, 8 pages submitted will result in a beginning grade of a 70 and go down from there, while a submission of 12 pages will start at a 100 and go down.**

**Journal Entries (30%)**

There will be weekly Journal Entries that each student must provide a well written and critically thought response.

**Examinations (30%)**

There will be three (3) examinations in this course. Each of these examinations is worth 10% of your total course grade and will be delivered via Blackboard.

**Assignment Submission**

All assignments MUST be submitted through the Assignments link in the Blackboard site. This is for grading, documenting, and archiving purposes. Issues with technology use arise from time to time. If a technology issue does occur regarding an assignment submission, email me at joel.carr@angelo.edu and attach a copy of what you are trying to submit. Please contact the IT Service Center at (325) 942-2911 or go to your Technology Support tab to report the issue. This lets your faculty know you completed the assignment on time and are just having problems with the online submission feature in Blackboard. Once the problem is resolved, submit your assignment through the appropriate link. This process will document the problem and establish a timeline. Be sure to keep a backup of all work.

**Late Work or Missed Assignments Policy**

The course is set up on weekly modules. The week begins on Sunday and ends on Saturday. Assignment due dates are shown on the calendar/schedule or posted within Blackboard. Failure to submit your assignments on the assigned date will result in no credit awarded for the assignment. No papers or postings will be accepted after the due date indicated in the syllabus unless the late assignment is due to a university approved absence defined in the graduate catalog.

Make-up work will be considered on a case by case basis and will only be allowed for university approved absences.

### Student Evaluation of Faculty and Course

Students in all programs are given the opportunity to evaluate their courses and the faculty who teach them. Evaluations are most helpful when they are honest, fair, constructive, and pertinent to the class, clinical experience, or course. Faculty value student evaluations, and use student suggestions in making modifications in courses, labs and clinical experiences.

Angelo State University uses the IDEA (Individual Development and Educational Assessment) system administered through Kansas State University for all course evaluations. The Office of Institutional Research and Assessment administers IDEA for the entire university, online and has established a policy whereby students can complete course evaluations free from coercion.

The Student Learning Outcome’s that are considered “essential” include:

1. Gaining a basic understanding of the subject (e.g., factual knowledge, methods, principles, generalizations, theories)
2. Developing specific skills, competencies, and points of view needed by professionals in the field most closely related to this course.
