Grading System
Course grades will be dependent upon completing course requirements and meeting the student learning outcomes.

The following grading scale is in use for this course:
- A = 90.00-100 points
- B = 80.00-89.99 points
- C = 70.00-79.99 points
- D = 60.00-69.99 points
- F = 0-59.99 points (Grades are not rounded up)

Teaching Strategies
Students are expected to be “active learners.” It is a basic assumption of the instructor that students will be involved (beyond the materials and lectures presented in the course) discovering, processing, and applying the course information using peer-review journal articles, researching additional information and examples on the Internet, and discussing course material and clinical experiences with their peers.

Assignment and Activity Descriptions

Term Paper (40%)
Each student will write a term paper over a major topic covered in this course no less than 10 total pages in length. The topic is left to the student’s discretion as long as it relates to the topics covered in this course. The term paper must include at least 10 peer-reviewed journal articles as references; other references are acceptable as needed. The term paper must conform to the most recent publication manual of the American Psychological Association.

Examinations (60%)
There will be four (4) examinations in this course. Each of these examinations is worth 15% of your total course grade, and will be delivered via Blackboard.

Assignment Submission
All assignments MUST be submitted through the Assignments link in the Blackboard site. This is for grading, documenting, and archiving purposes. Issues with technology use arise from time to time. If a technology issue does occur regarding an assignment submission, email me at tstarkey@angelo.edu and attach a copy of what you are trying to submit. Please contact the IT Service Center at (325) 942-2911 or go to your Technology Support tab to report the issue. This lets your faculty know you completed the assignment on time and are just having problems with the online submission feature in Blackboard. Once the problem is resolved, submit your
assignment through the appropriate link. This process will document the problem and establish a timeline. Be sure to keep a backup of all work.

Late Work or Missed Assignments Policy
The course is set up on weekly modules. The week begins on Sunday and ends on Saturday. Assignment due dates are shown on the calendar/schedule or posted within Blackboard. Failure to submit your assignments on the assigned date will result in no credit awarded for the assignment. No papers or postings will be accepted after the due date indicated in the syllabus unless the late assignment is due to a university approved absence defined in the graduate catalog.

Make-up work will be considered on a case by case basis and will only be allowed for university approved absences.

**Student Evaluation of Faculty and Course**

Students in all programs are given the opportunity to evaluate their courses and the faculty who teach them. Evaluations are most helpful when they are honest, fair, constructive, and pertinent to the class, clinical experience, or course. Faculty value student evaluations, and use student suggestions in making modifications in courses, labs and clinical experiences.

Angelo State University uses the IDEA (Individual Development and Educational Assessment) system administered through Kansas State University for all course evaluations. The Office of Institutional Research and Assessment administers IDEA for the entire university, online and has established a policy whereby students can complete course evaluations free from coercion.

The Student Learning Outcome’s that are considered “essential” include:

1. Gaining a basic understanding of the subject (e.g., factual knowledge, methods, principles, generalizations, theories)
2. Developing specific skills, competencies, and points of view needed by professionals in the field most closely related to this course
