COURSE OBJECTIVES

This course provides a decision-oriented overview of marketing management in modern organizations. The most basic objectives of the course are to provide you with a broad introduction to marketing concepts, the role of marketing in society and in the firm, and the various factors that influence marketing decision-making. Like other introductory survey courses, you will be exposed to and expected to learn the “language of marketing” (that is, terms, concepts, and frameworks) used by practicing marketing managers. However, it is also expected that by the end of the course you will have a solid understanding of the major decision areas under marketing responsibility, the basic interrelationships of those decisions areas, and an appreciation to how to apply key frameworks and tools for analyzing customers, competition, and marketing strengths and weaknesses. The course should help you to develop insight about the creative selection of target markets and blending decisions related to product, price, promotion, and place (i.e., the marketing mix) to meet the needs of a target market.

These objectives can only be achieved through a joint effort: I will work to stimulate your interest and learning in these areas, but you will be expected to display initiative and a program of self-study as well. In that sense, a complementary objective of the course is to provide you with an environment that
will encourage and reward your own intellectual effort, while simultaneously maintaining rigorous standards that identify those who are motivated to pursue excellence in their own educational preparation for a business career.

**Learning Objectives**
Upon completion of the course, students should be able to:

1. Define marketing and describe a marketer’s role in creating, communicating, and delivering value.
2. Explain each of the four elements of the marketing mix.
3. Define marketing strategy and strategic planning.
4. Summarize the major external factors that influence the marketing environment.
5. Organize the five steps of the marketing research process.
6. Explain the consumer decision-making process.
7. Describe the product life cycle.
8. Explain segmentation, targeting, and positioning (STP).
9. Describe the elements of the promotion mix.
10. Explain how logistics and supply chains add value to products and services.

**Methods of Assessing Learning Outcomes**
Learning Outcomes will be assessed through exams, Mini Sim assignments, and Connect assignments.

These objectives can only be achieved through a joint effort: I will work to stimulate your interest and learning in these areas, but you will be expected to display initiative and a program of self-study as well. In that sense, a complementary objective of the course is to provide you with an environment that will encourage and reward your own intellectual effort, while simultaneously maintaining rigorous standards that identify those who are motivated to pursue excellence in their own educational preparation for a business career.

**GRADING POLICIES**

Course grades will be based on a weighted composite of the following:

<table>
<thead>
<tr>
<th>Component</th>
<th>Weight</th>
</tr>
</thead>
<tbody>
<tr>
<td>Exam 1</td>
<td>100</td>
</tr>
<tr>
<td>Exam 2</td>
<td>100</td>
</tr>
<tr>
<td>Exam 3</td>
<td>100</td>
</tr>
<tr>
<td>Exam 4</td>

<tr>

<td>100</td>
</tr>
<tr>
<td>Connect Chapter Assignments (18 Chapters)</td>
<td>100</td>
</tr>
<tr>
<td><strong>TOTAL</strong></td>
<td><strong>600</strong></td>
</tr>
</tbody>
</table>
Letter grades will be assigned such that a student will receive:

A = (90% and above)  
B = (80 – 89%)  
C = (70 – 79%)  
D = (60 – 69%)  
F = (59% and below)

Tests and Final Exams
The tests during the term are in an objective-test format. The tests will consist of multiple-choice questions given online during COVID prevention periods - after which the exams will be in the traditional format (given in the classroom on the dates specified on the Class Schedule). SCANTRON answer forms will be provided at no cost to students during the term for the multiple-choice questions.

The tests during the term will generally involve about 50 - 60 multiple-choice questions and they will sample about evenly from both the general concepts and the details presented in the text and in class. The final exam will cover only the material covered since the prior exam. Please keep in mind that being prepared and taking the tests during the allocated times is your responsibility. The tests are on the schedule and I urge you to mark them on your calendar now. Missing a scheduled test, whether it is online or in class, without approval will result in a zero for that test.

Mini Simulation Assignments
Each student is responsible for the completion of five Mini Sims. In each Mini Sim, you’ll take on the role of a marketing decision maker for a backpack manufacturing company and have opportunities to check your understanding of key concepts and make business decisions. Each Mini Sim focuses on one aspect of the marketing mix, and typically takes an average of 30 minutes to complete. (Please note that it often takes students longer than 30 minutes to complete the first Mini Sim, The Marketing Mix, as it provides an overview of the Mini Sim environment). Through each Mini Sim, a marketing team provides background on core concepts, asks you questions, and provides feedback and guidance towards meeting your goals.

Each Marketing Mini Sim has two parts, each worth 50% of your grade:
1) Accomplishing a mission goal or set of goals (stated clearly at the start of each sim)
2) Answering a series of questions correctly to demonstrate your understanding of the topic.

Please note: Within the Marketing Mini Sims, you do NOT have the ability to change an answer once it's selected. In a conversation, you click a button for an answer; that answer is considered final for that attempt and the conversation continues. Typically, in these conversations, your answers are immediately followed up with some feedback indicating whether the response is correct or incorrect.

Connect Assignments
There are 18 Connect chapter assignments worth a total of 100 points each. These are designed to help you learn the concepts and will be covered on the exams.

Office Hours and Conferences
I look forward to the opportunity to get to know you during the term. I will be glad to talk with you about any aspect of the course—or for that matter anything that is on your mind. Please let me know if I can be of help. I will hold regular office hours. You do not need an appointment during regular office hours, but if you would like to reserve a specific appointment time in advance, that’s fine with me. I will also be glad to talk with you before or after classes as our schedules permit. If you have a conflict
during my scheduled office hours, I will also be pleased to make an appointment to see you at a time that is more convenient for you. I will be in my office and available much of the time outside of my scheduled office hours, and I am glad to have you just drop by my office whenever it’s convenient for you. However, I do have other courses, committee responsibilities, etc., and so the best way to be certain that we’ll have a chance to talk is for you to let me know you’re coming.

Please feel free to call if you have a questions and it is more convenient to call than drop by. Please leave a message (including a number where I can return your call) on the phone mail system if you call and I am not in. You are also welcome to send me an email. You can also text me at (325) 939-1263. I also have access to Facebook.

Response Time
I normally respond within hours, even minutes, of your email; you can expect a response to your question(s) within 24 hours.
