

Course Syllabus

AGEC 2317 – Introduction to Agricultural Economics & Business

Instructor

English Ratliff

Email: eratliff@angelo.edu

Phone: (325) 486-6938

Office: VIN 226, Vincent Building

Office Hours: Monday-Thursday, 1:00pm-3:00 pm. I will be available over email and with current conditions, it is the best way to get in touch with me.

Course Description

This course is designed to provide students with an introduction to the fundamental principles of economics and their application to the behavior of individuals, businesses, and societies.

Meeting Time & Location

10:00 am - 10:50 am MWF Vincent Nursing Physical Sci 238

Required Technology & Computer Skills

To successfully complete this course, students are expected to:

- Possess access to the necessary hardware required to view online materials, such as:
 - A computer or mobile device with a reliable internet connection,
 - The ability to view videos from various sources and that use various formats, and
- Possess basic web navigation skills;
- Register for McGraw-Hill Connect Plus on or before the last day of the first week of class; and students will need to pay to register for Connect Plus, but can begin the class with two weeks of free courtesy access.

Expected Knowledge Prerequisites

As an introductory course in microeconomics, this class has very few required prerequisites in terms of knowledge. I do expect that students taking this course have prior experience with some basic mathematic and algebraic concepts:

- Students should know what a ratio is and how to interpret one.
- Students should know what the slope of a straight line communicates about the relationship between two variables.
- Students should be able to calculate the slope of a line using information found in a graph.
- Students should be able to solve for an unknown variable in an equation.
- Students should know how to take numerical information and plug it in to an equation to calculate a solution.

I provide an opportunity to review and practice these skills at the beginning of the course.

Textbook & Learning Platforms

- This course is based on the 7th edition of *Principles of Microeconomics* by Frank, Bernanke, Antonovics, & Heffetz. Registering for Connect Plus will provide you with access to an electronic copy of the text.
- I will use the McGraw-Hill Connect Plus platform to deploy reading assignments, application/study assignments, and extra credit assignments.
- You will be able to access all course content, including McGraw-Hill content, through the course Blackboard page.

Course Learning Objectives

As your instructor I have established a set of learning goals and related objectives:

- Goal 1: Learn essential knowledge. Students will demonstrate the correct use of microeconomic principles to draw conclusions about market outcomes.
- Goal 2: Develop critical thinking skills. Students will take numerical and graphical data, synthesize this data into usable information, and use the information they create to draw conclusions about market outcomes.
- Goal 3: Develop quantitative skills. Learning Goal 3 is strongly related to Goal 2. Where Goal 2 emphasizes the ability to draw conclusions using data, Goal 3 emphasizes the ability to use quantitative skills to create the information you need to draw conclusions.

This list provides a general idea of what a student must do to successfully complete this course. A more detailed list of goals and objectives will be made available to students on the course Blackboard page. Students' progress toward these goals will be assessed through their performance on exams and daily application/study assignments.

Core Student Learning Objectives

AGEC 2317 has been approved to count towards your Social Sciences core credit. To this end, students taking this course must show progress toward 4 goals.

- Demonstrate critical thinking skills (CT)
- Demonstrate communication skills (CS)
- Demonstrate empirical and quantitative skills (EQS)
- Demonstrate social responsibility (SR)

Progress toward these objectives will be assessed using exams and homework assignments.

Course Structure

This is a face-to-face course with online components that students are expected to access in Blackboard and on the Connect Platform.

Every week on Sunday you will have your topic and chapter posted that you will be reading about and watching videos on. The in class sessions will help you with the weekly homework assignments that you will have due on the Sunday after.

Policy Regarding In-Class Attendance/Participation

Regular attendance in face-to-face sessions is a vital part of the learning process. I expect students enrolled in AGEC 2317 to attend every lecture.

How I Take Attendance

I will maintain a record of every student's attendance for each day of class for those of you who are face to face. If I do not record that you were in class, then you will be counted absent on that day.

Grading

Your grade will be calculated based on the number of points you earn out of 675. The grading scale for the course is as follows:

- A = 586-675 points
- B = 496-585 points
- C = 406-495 points
- D = 316-405 points
- F = 0-315 points

You will earn points based on your performance on the following tasks:

- Exams: 400 points
- Weekly assessments: 175 points
- Course Entry Tasks: 80 points
- Course Exit Task: 20 points

Exams

There are four midterm exams scheduled for this course, plus one final exam.

- Each midterm exam will focus on one week's worth of material. The final exam will be cumulative.
- Each week, a midterm exam will be made available on Friday at 8:00 am. You will have until the following Sunday at 5:00 pm to complete each midterm.
- The final exam will be available Monday Dec 6, 2021, at 8:00am and will be due Thursday Dec. 9 2021 at midnight.
- Every exam will be timed
- Each exam is worth 100 points. The exam portion of your grade will be calculated using the highest four of your five exam scores.

Weekly Assessments

During the course you will be required to take 7 chapter assessments; one for each chapter, Monday-Sunday. Each assessment is worth 25 points and must be completed by 11:59 pm on the day it is assigned. The purpose of these assessments is to give you a chance to determine what you do and don't understand about the week's topics. As such, you will be allowed three attempts on each assessment. After each attempt, please take an inventory of the questions you missed, determine which topics those questions are related to, and review those topics before attempting the assessment again. It is possible to earn full credit through "trial and error"; however, doing so will not help you accomplish the learning goals for the course.

Course Entry Tasks

You must complete four entry tasks on or before Sunday, August 29th. The purpose of these tasks is to make sure that you are aware of the course goals and policies, and that you are prepared to interact with the various technologies that you will be using in the course before you actually need them. The Three tasks you must complete are:

1. Read the syllabus, review the course policies, review Angelo State's policies regarding academic integrity and academic dishonesty, and complete a short quiz over this information
2. Register for McGraw-Hill Connect
3. Complete a series of orientation exercises in connect:
 1. Connect Orientation
 2. Graphing Orientation
 3. Math Preparation"

Completing all of these tasks will earn you 80 points toward your final grade, 20 points each. These points are largely effort-based; as long as you successfully complete each task you should earn full credit.

Course Exit Task (the final exam)

Hopefully, you will earn high grades on each of the four midterms and will not need to use your final exam score as a part of your final grade. You still need to take the final exam, however, so that I can perform a final assessment of your progress toward the course learning goals. For this reason, you will earn 20 points towards your final grade simply for taking the final. For many of you, this may be the final "bump" you need to progress to a higher letter grade.

Extra Credit

To earn extra credit during the course you will have the opportunity to complete seven LearnSmart modules in Connect. These are adaptive learning modules in Connect's Smart Book program that ask you questions as you read each chapter of the text. During the course we will read all or parts of Chapters 1, 3, 4, 5, 6, 7, and 8 and as far as we get through. You may complete a LearnSmart module associated with each of these chapters to earn up to 60 points of extra credit. Each module that you complete is worth 10 points.

The best practice for completing the LearnSmart modules will be to complete each module during the same week you are asked to read the related chapter. Doing so should help you to understand the material, and should help prepare you for the assessments and exams. However, you may complete these modules at any time before May 7th at 11:59 pm. to earn the extra credit.

Policy on Missing a Deadline

General Policy

Policy on Missing a Due Date

It is vital that you regularly assess your knowledge of the material presented in this course if you want to accomplish the course learning goals. For this reason, every assignment must be completed by the date

and time announced in class and on listed on Blackboard. You may complete any of the study assignments or course entry tasks after their due date; however, late assignments will receive an automatic 50% reduction in their score. The deadline to submit late assignments for partial credit is Dec. 3rd at 11:59 pm.

Special circumstances may warrant an extension on the deadline for any assignment. Please see the policy on requesting extensions or changes in due dates for more information.

Exams must be completed within the time frame listed in the course schedule; that is, between 8am on Friday and 5pm on Sunday of the given week. Students will not generally be allowed to access an exam once the deadline is passed.

ASU Policy on Religious Holy Days

A student who intends to observe a religious holy day should make that intention known in writing to the instructor prior to the absence. A student who is absent from classes for the observance of a religious holy day shall be allowed to take an examination or complete an assignment scheduled for that day within a reasonable time after the absence.

Requesting an Extension on Change in a Due Date

As you progress through the course you may find yourself faced with a situation that prevents you from accessing and submitting an assessment or exam by the given deadline. When these circumstances occur, you may request an extension by emailing me. When you request an extension please provide an explanation for why you will miss the deadline, why the circumstance cannot reasonably be avoided, and an estimate for when you expect to complete the assessment or exam.

If you know beforehand that you will be unable to access an assessment or exam you may request that its due date be changed. Once this change is made you will be expected to complete the assessment or exam by the new deadline, and will be subject to the same consequences for missing deadlines that all other students face.

Please submit all requests for extensions or a change in due dates to me by email so that there is a written record of the request. In addition, please note that you are not guaranteed an extension or change in due date that you ask for. I will consider each request based on their individual merits.

Contacting Dr. Ratliff

Communication is an important skill that nearly all employers look for in new employees, and particularly in college graduates. Learning to communicate professionally is vital if you wish to remain employed in any career for very long. For this reason, when you contact me via email, please include a subject, a greeting, and a signature. For example, if you are experiencing a difficulty logging into Connect your email might look like this:

Subject: Connect is down

Dear Dr. Ratliff,

I tried to log in to Connect to complete the daily assessment, but it seems the program is down for emergency maintenance. Have any other students encountered this issue? Considering the circumstance, would you please extend the assignment's deadline?

Thank you,
[Your Name]

Be advised that I may ask some follow up questions and your answers might determine how accommodating I am.

Academic Integrity and Misconduct

Angelo State University expects its student to maintain complete honesty and integrity in their academic pursuits. Students are responsible for reading and understanding the policies set forth in the [Student Handbookⁱ](#).

Americans with Disabilities Act

Angelo State University is committed to the principle that no qualified individual with a disability shall, on the basis of disability, be excluded from participation in or be denied the benefits of the services, programs, or activities of the university, or be subjected to discrimination by the university, as provided by the Americans with Disabilities Act of 1990 (ADA), the Americans with Disabilities Act Amendments Act of 2008 (ADAAA), and subsequent legislation.

Student Disability Services is located in the Office of Student Affairs, and is the designated campus department charged with the responsibility of reviewing and authorizing requests for reasonable accommodations based on a disability. It is the student's responsibility to initiate such a request by contacting an employee of the Office of Student Affairs, in the Houston Harte University Center, Room 112, or contacting the department via email at ADA@angelo.edu. For more information about the application process and requirements, visit the [Student Disability Services websiteⁱⁱ](#). The employee charged with the responsibility of reviewing and authorizing accommodation requests is:

Dallas Swafford
Director of Student Disability Services
Office of Student Affairs
325-942-2047
dallas.swafford@angelo.edu
Houston Harte University Center, Room 112

Course Schedule

A detailed schedule of course topics, including the due dates for all assessments and exams, are provided to students on the course website in Blackboard.

Policies on Deviations from this Syllabus

While I hope I do not have to make any changes to the course policies or course schedule, there is always the possibility that special circumstances will arise that necessitate changes be made. If such a circumstance occurs then I will communicate it to the class via Blackboard and email. Once announced, any such change will supersede what is written in this syllabus or currently published online.

TENTATIVE SCHEDULE

Week(s)	Dates	Topics
1	August 23-27	Orientation
2	August 30- Sept. 3	Chapter 1
3, 4,5	Sept. 6-Sept. 24	Chapter 3
6	Sept. 27-Oct. 1	Chapter 4
7	Oct. 4-8	Review and Exam 1 (chapters 1,3,4)
8	Oct. 11-15	Chapter 5
9	Oct. 18-22	Chapter 6
10	Oct. 25-29	Review and Exam 2 (Chapter 5-7)
11	Nov. 1-5	Chapter 7
12	Nov. 8-12	Chapter 8
13	Nov. 15-19	Chapter 8
14	Nov. 22-26	Review and Exam 3
15	Nov. 29-Dec. 3	Review for final exam/Catch up week
16	Dec. 6- Dec. 9	Final exam due Thursday Dec. 9 at Midnight.
