TABLE OF CONTENTS: This syllabus has three parts.
   Part 1: This course and its requirements
   Part 2: Course Schedule
   Part 3: ASU policies and assistance

PART 1: THIS COURSE
COURSE DESCRIPTION:
No matter what job you hold, you will be a citizen of some country, probably the U.S., and as such, the U.S. Constitution and its implementation will affect you. Political Science 2305 introduces you to the American federal system of government. This introductory survey course covers the origin and development of the U.S. Constitution, structure, and powers of the national government, including the legislative, executive, and judicial branches, federalism, political participation, the national election process, public policy, civil liberties, and civil rights. Also, it will show you how citizens are linked to their governmental institutions and how you can communicate with your elected representatives. Lectures and discussions will supplement the text, not merely explain it. Exams will cover lectures as well as course readings.

CORE OBJECTIVES:
Critical Thinking: gather, analyze, evaluate, and synthesize information relevant to a question or issue.
Communication: develop, interpret and express ideas through effective written communication
Social responsibility: demonstrate knowledge of civic responsibility
Personal responsibility: demonstrate the ability to evaluate choices, actions, and consequences as related to ethical decision-making

COURSE LEARNING OUTCOMES:
1. The student will explain the origin and development of the U.S. Constitution and constitutional democracy
2. The student will describe the effects that historical, social, political, cultural, and global forces had on the U.S Constitution
3. The student will demonstrate knowledge of the legislative, executive, and judicial branches of the national government.

4. The student will demonstrate a knowledge of the origins and evolution of the U.S. political system, focusing on the growth of political institutions and the key components of the political system.

5. The student will understand the American federal system and explain how different political systems divide and share power between their central and state governments.

6. Students will evaluate the role of public opinion, interest groups, political parties, campaigns, and elections in the political system.

7. Students will describe the rights and responsibilities of citizens and be able to comment on the role of civic engagement in U.S. politics and political culture.

8. The student will analyze political issues, demonstrate critical thinking skills, and develop a critical approach to the study of government

LEARNING RESOURCES:

You can also use the second edition at https://openstax.org/subjects/details/books/american-government-2e Print ISBN 1947172654, Digital ISBN 1947172662. If using the second edition you may miss out on some supplemented material but you will get the gist of the course. You may access it at the above address or through the link on the class Blackboard page.

You can also purchase a print version on iBooks, at the campus bookstore, or from OpenStax on Amazon.com. You can use whichever format you want. (Simple printouts sold by third parties on Amazon are not verifiable and not as high-quality.) if you buy on Amazon, make sure you use the link on your book page on openstax.org so you get the official OpenStax print version.

There may be other readings noted in the course schedule. These will be available via the web or class BlackBoard page. Optional supplemental material, which I think may assist you with the required material, is also posted to BlackBoard. You are not required to read/use this optional material, but it may help your enjoyment and success in this class.

REQUIRED ERESOURCE: You are required to purchase access to the Top Hat e-system from TopHat.com. Instructions on purchase and access are posted to the class Blackboard page. If you have purchased Top Hat for another class, you do not have to purchase new access. You merely add this class to your roster.

CLASS REQUIREMENTS:

Classroom etiquette: A proper learning environment is one in which all points of view, all questions asked, and all questions answered are treated with tolerance and respect. The overall goal of classroom decorum is to treat each other with respect and dignity. Any behavior that disrupts this learning environment, such as late arrivals or early departures, is unacceptable and inappropriate behavior will be subject to appropriate sanction.
Attendance: You are expected to attend all classes in person. You may attend online only through a learning accommodation. See student accommodation office for particulars. Attendance will be taken for every class through Top Hat, and the student is cautioned that excessive absences will jeopardize their final grade for the course. A portion of your final grade is based on your attendance in-class sessions.

- Sleeping/Talking/Using Earbuds/Surfing the web/Texting will be counted as an unexcused absence during class. You will be given one warning and one unexcused absence. If it continues, you will be marked down one full grade on your final grade. Any student may anonymously alert me to a concern over a distraction, and I will then determine if there is a problem.
- Arriving late or leaving early without prior permission will be counted as an absence. You must be present when attendance is taken via Top Hat and must remain signed in to TopHat throughout the class period. TopHat notifies me when you exit the site.
- Students who have four or more unexcused absences will not receive credit for attendance. Two unexcused absences will receive a 10 point deduction, three a 20 point deduction.
- Excused Absences: To receive an excused absence:
  - You may use one (1) no-questions-asked (NQA) excused absence. You may not use this absence on a group discussion day. To use an NQA excused absence, you must notify me by email at least 30 minutes before the start of class that you will be absent that day.
  - Other excused absences require written proof, such as a doctor’s note, faculty notice that you are out on ASU business, etc. If you are using a written proof excuse on a discussion day, you must make arrangements with me before the absence to complete the work within 24 hours of the end of your excuse.

Grading: This course uses a standard percentage system, 100-90%=A, 89-80%=B, etc. Grading sections are Exams on Blackboard (6 at 100 points each), Group Discussion (6 cumulative for 100 points total), Attendance (100 points for the semester), Semester Project Proposal (100 points), Semester Project Final Paper (200 points). The Final Paper counts double as it also takes the place of the final exam.

There is no final exam. The Semester Project will serve as your final exam grade.

Extra credit is available only as specified. See the extra credit content module on Blackboard. Extra credit will not be awarded individually to assist you in bringing up a bad grade.

Assignments: All deadlines are firm. Extensions due to excused absences are granted, as noted below.

Readings: Readings are listed by the class in which they will be discussed. You are expected to have read the material before that class period. Reading assignments are not a substitute for
attending class. We will discuss additional material in class, which will be included in graded assignments.

**Exams:** YOU MUST USE A PC TO COMPLETE THE EXAMS. YOU CANNOT USE YOUR PHONE. There will be online exams using the Respondus Lockdown Browser. The deadlines for these tests are on BlackBoard, and in the course schedule, YOU MAY NOT USE ANY AIDS WHILE TAKING THESE EXAMS. These exams will be T/F, MC, and short answer and cover the reading AND lectures.

Respondus Lockdown Browser. It is your responsibility to install the program and to know how to use it. You may access installation and tutorials for Respondus Lockdown Browser via the technology tab on the opening page of Blackboard and posted to Blackboard in the Exam Module. You will NOT use a Respondus webcam. If you have any problems consult ASU Tech Services.

**IPAD ALERT:** If you use an Ipad for your exams, let me know immediately so I can set Respondus to accept your work. Waiting until the day of or after an exam to alert me will not result in an extension of time to complete the exam.

**Participation:** Your participation grade will depend on your activity during the group discussion. I will post discussion prompts for each group discussion day to Blackboard in the group discussion module. The prompts are links to news articles on topics relating to the section we are studying. You are expected to review the news articles and be prepared to discuss them in class. Your group may decide to assign different topics to individual members to lead discussions on that topic. Still, everyone in the group is expected to read at least the linked article on the topic and participate in the discussion on every topic. Your grade will depend on your participation in the group through my observations and peer reviews for your group members. I alone determine the quality of your participation.

**Semester Project:** There is a **two-part** semester project. The first part is your project proposal, and the second is your final project paper. See Blackboard for specifics about the project proposal and final submission. The Final Paper counts double as it also takes the place of the final exam.

**TurnItIn:** This course will use TurnItIn for written assignments. You will submit your proposal and final project through the assignment listed on Blackboard. TurnItIn will automatically review your proposal and the final project. TurnItIn only accepts Word or pdf format. If you do not know how to use TurnItIn, see the tutorials on Blackboard. DO NOT submit your project through TurnItIn.com.

**Extensions for Proposal and Project Submission:** Rarely do I allow extensions of the proposal and final project deadlines. Only extraordinary unforeseeable events will receive extensions.

**FYI:** Computers crash—it is your responsibility to save a backup copy of your project off your hard drive; thus, this is not an excuse for a late project. Also, the clock on your computer may not align with the one on Blackboard or TurnItIn. The Blackboard and TurnItIn clocks control submission deadlines. Further, it takes time for uploads to be completed. If they are not completed before the Blackboard or TurnItIn clocks reach the deadline, your submission will be blocked, and you will not receive an extension of time.
