## Grading

### Evaluation and Grades

Course grades will be determined as indicated in the table below.

Assessment	Points of Total Grade
Check Yourself	2.5%
Quick Check Chapter 1	2.5%
Pronunciation Test	20%
Abbreviations	10%
Chapter Homework	15%
Apply Yourself: Learning Lab	15%
Test Yourself	15%
Comprehensive Review	20%

## Grading System

Course grades will be dependent upon completing course requirements and meeting the student learning outcomes.

The following grading scale is in use for this course:

A = 90.00 – 100.00%

B = 80.00 - 89.99%

C = 70.00 - 79.99%

D = 60.00 - 69.99%

F = 0 - 59.99% (Grades are not rounded up)

## Teaching Strategies

Students are expected to be “active learners.” It is a basic assumption of the instructor that students will be involved (**beyond the materials and lectures presented in the course**) discovering, processing, and applying the course information using peer-review journal articles, researching additional information and examples on the Internet, and discussing course material and clinical experiences with their peers.

## Assignment and Activity Descriptions

You will complete all assignments that have an **ORANGE** dot behind them. These are for points and are required. Check the drop downs. Any other assignments can be done for practice. They will not count towards your grade.

### Individual Assignments

- Pronunciation Test: every chapter
  - Tests students on their ability to correctly pronounce 15 key terms in each chapter. Students record themselves pronouncing.
  - Measures the fifth medical terminology learning outcome: Correctly pronounce medical terms.
- Chapter Homework Assignment: every chapter
  - Randomized questions and feedback that reinforce course concepts, in the chapter as a whole versus a specific Reading section.
  - Provides students with practice and checks comprehension.
- Abbreviations: every chapter

- Chapter 1 introduces students to abbreviations, their use, and examples of “Do Not Use” abbreviations. Remaining chapters include tables that present an overview of abbreviations related to the terms introduced in the chapter.
  - Helps students become familiar with the most commonly used abbreviations that are used in medical practice.
- Apply Yourself – Learning Lab: every chapter
  - Video-based simulations that include a pre-assessment, a set of learning activities, and a post-assessment.
  - Students are placed in a simulated, real-world environment, playing the role of a health care professional to help with various tasks pertaining to patient education and care, and also receive feedback on how well they performed at end of the module. The goal of the learning lab is to promote critical thinking skills through a real-world application.
- Test Yourself: every chapter
  - Randomized questions and feedback that test on chapter content.
  - Measure how well student mastered the material after completing each MindTap chapter.
- Comprehensive Review –
  - Comprehensive Review includes study tips, building terms and spelling terms assignments, and a 25- question final test.
  - The Comprehensive Review helps students prepare for their final exam by determining where they need more study emphasis.

### **Assignment Submission**

All assignments MUST be submitted through the Assignments link in the **Blackboard site**. This is for grading, documenting, and archiving purposes. Issues with technology use arise from time to time. If a technology issue does occur regarding an assignment submission, email me at [erin.hemmelgarn@angelo.edu](mailto:erin.hemmelgarn@angelo.edu) and attach a copy of what you are trying to submit. **Please contact the IT Service Center at (325) 942-2911 or go to your Technology Support tab to report the issue.** This lets your faculty know you completed the assignment on time and are just having

problems with the online submission feature in Blackboard. Once the problem is resolved, submit your assignment through the appropriate link. This process will document the problem and establish a timeline. Be sure to keep a backup of all work.

### **Late Work or Missed Assignments Policy**

Late work will not be accepted unless you have received permission from the instructor prior to the due date. If you miss an assignment due to an unexcused absence, you are out of luck. Show up for class!

## **General Policies Related to This Course**

All students are required to follow the policies and procedures presented in these documents:

- Angelo State University Student Handbook<sup>1</sup>
- Angelo State University Catalog<sup>2</sup>

### **Student Responsibility and Attendance**

There are readings which you will have to complete to be able to adequately participate in individual and group assignments. In order to complete this course successfully, you do have to participate in all course activities i.e. discussion boards, course projects, reflective logs, etc. Students are expected to engage in course activities and submit work by due dates and times. The hope is that students will make substantive contributions that reflect integration of assigned materials as well as any outside readings as appropriate. Scholarly contribution is an expectation. For planning purposes, this class will probably require a minimum of 6-9 study hours per week on average.

### **Recommended Use of Masks/Facial Coverings by Students in Class At ASU**

As a member of the Texas Tech University System, Angelo State University strongly recommends the use of masks/facial coverings to ensure a safe and healthy classroom experience. Current research on the COVID-19 virus suggests there is a significant reduction in the potential for transmission of the virus from person to person by wearing a mask/facial covering that covers the nose and mouth areas. Therefore, we strongly recommend that students in this class wear a mask/facial covering before, during, and after class. Faculty members will also ask you to display your daily screening badge as a prerequisite to enter the classroom.

## **Student Evaluation of Faculty and Course**

Students in all programs are given the opportunity to evaluate their courses and the faculty who teach them. Evaluations are most helpful when they are honest, fair, constructive, and pertinent to the class, clinical experience, or course. Faculty value student evaluations, and use student suggestions in making modifications in courses, labs and clinical experiences.

Angelo State University uses the IDEA (Individual Development and Educational Assessment) system administered through Kansas State University for all course evaluations. The Office of Institutional Research and Assessment administers IDEA for the entire university, online and has established a policy whereby students can complete course evaluations free from coercion.

### **Student Learning Outcomes**

1. Gaining a basic understanding of the subject (e.g., factual knowledge, methods, principles, generalizations, theories)
2. Learning to apply course material (to improve thinking, problem solving, and decisions)
3. Developing specific skills, competencies, and points of view needed by professionals in the field most closely related to this course.
4. Acquiring skills in working with others as a member of a team.
5. Learning to apply knowledge and skills to benefit others or serve the public good
