Classroom Health and Safety Protocols

Each of us has a responsibility - in living our Core Values from “Integrity” to “Commitment” - to do our part to protect the well-being of ourselves, those we serve, and those we live with on a daily basis. Given the known science, we recommend individuals do two things to maximize protection against COVID-19:

Wear a facial covering.
Get a vaccination.

ASU is not currently mandating facial coverings; however, please feel free to wear a facial covering when you are indoors among groups of people. Facial coverings have been an effective part of the COVID-19 management strategy. These safety precautions support our efforts to continue operations without disruptions and provide as traditional of an educational experience as possible.

As an institution that teaches health care professionals and one that also teaches science - in addition to being a part of the TTUS where we have two exceptional Health Science Centers - we respect the data that being fully vaccinated is the most effective way to prevent illness and slow the spread of COVID-19. Although ASU is not mandating vaccinations, we encourage everyone who is eligible to get a vaccination.

For information on how you can get vaccinated, contact your local medical provider.
