Course Philosophy and Additional Skills Developed: Research has established that providing opportunities for active learning in the classroom usually improves the overall learning a student takes away from a course. Furthermore, the skills outlined below are critical to developing a desire for life-long learning required to succeed in your career of choice. With this in mind, this class and the lectures have been developed to engage students in discussion, small group work, and other activities to actively engage your participation. Therefore, the following ground rules are applied to the course:

1. Active participation - Everyone - students, professor, and visitors - will actively participate in the class on a daily basis. Attendance is not only expected, but imperative. A portion of your course grade will be dependent upon your active involvement in the course.
2. Cooperation and Mutual Respect - As leaders, we must learn to create an atmosphere of trust in our work teams. This means appreciating the unique set of experiences, beliefs and values each member brings to class. Another important element of trust and respect is listening. Good leaders are notable for the ability to listen to others and ask meaningful questions. Respectful turn-taking in both sharing and listening is expected.
3. Creativity – You will be challenged to create new thought. When we think through something for the first time, we are creating our logic, purposes and reasons for thinking. We are making new assumptions. We are forming new concepts. We are asking new questions. We are making new inferences. We are working out a problem in a direction that is new to us.
4. Problem-solving – You will be required to not only identify problems but also to generate solutions and make recommendations based on a logical and thorough analysis of the alternatives.
5. Individual accountability – All members of the class will be held responsible for their own learning as well as the learning within their individual project teams. No member of any team should feel that he/she is doing more or less than an equal share of the project. Therefore, each team will be given the opportunity to sanction non-contributing team members through the following process: 1) verbal warning by the group with the professor as witness; 2) written warning by the team with a copy submitted to the professor; and 3) firing by the team by unanimous vote and sufficient written documentation provided to the professor.
Course Textbook and Required Readings

Other readings are assigned in a timely manner as needed and are provided to you as PDF, MS Word format, or a link to an online resource will be provided.

Grading Policies

This course employs the following to measure student learning.

Smartbook Chapter Quizzes: 16 @ 10 points each = 160 points (there are actually 17 quizzes which allows you to miss one quiz without penalty or earn 10 bonus points)
Exams: 4 @ 100 points each = 400 points
Research Assessment: 40 points
Total points: 600

Smartbook Chapter Quizzes (Connect) assignments provide a quick assessment of your mastery of the material in the corresponding chapter. Each assignment should take about 1 hour. There are no make-ups for missed quizzes.

Exams are scheduled at the end of each module. There are approximately 50 questions on each exam. Each exam is timed at 60 minutes. There is one logon allowed. Open book and notes are allowed. However, I must caution you that it would be impossible to complete the exam in the time allotted if you have not first adequately prepared for the exam.

Research Assessment – There will be a research assessment required. Using globalEdge, you will be required to answer questions regarding a specific issue using the global Edge research site. The assessment will be posted in the 7th week of assignments.

Class Café is the class discussion board. From time to time I will post a discussion question to generate conversations about a particular issue. The discussion will be focused on the globalEdge research tool. You will want to familiarize yourself with the use of this valuable research tool which could be useful to you in your future career. This is not a graded discussion board but does bode you well when it comes to “rounding” or bonus points. Check your discussion board every week for the discussion topic.

Due dates are noted on the Course Outline.

Incomplete as a Course grade

As stated in the Angelo State University Operating Policy and Procedure (OP 10.11 Grading Procedures), the grade "I" is given when the student is unable to complete the course because of illness or personal misfortune. For undergraduates, an "I" that is not removed before the end of the next long semester automatically becomes an "F". A graduate student will be allowed one year to remove a grade of "I" before it automatically becomes an "F". To graduate from ASU, a student must complete all "I"s.
Grade Appeal Process

As stated in the Angelo State University Operating Policy and Procedures (OP 10.03 Student Grade Grievances), a student who believes that he or she has not been held to appropriate academic standards as outlined in the class syllabus, has experienced inequitable evaluation procedures, or inappropriate grading practices, may appeal the final grade given in the course. The burden of proof is upon the student to demonstrate the appropriateness of the appeal. A student with a complaint about a grade is encouraged to first discuss the matter with the instructor. For complete details, including the responsibilities of the parties involved in the grade appeal process and the number of days allowed for completing the steps in the process, see Operating Procedure 10.03 at: http://www.angelo.edu/content/files/14196-op-1003-grade-grievance
