• Access to a computer with either a Mac or Windows Operating System *(Chromebook will not allow access to Respondus)*

Grading System
Course grades will be dependent upon completing course requirements and meeting the student learning outcomes.

The following grading scale is in use for this course:
- A = 90.00-100 points
- B = 80.00-89.99 points
- C = 70.00-79.99 points
- D = 60.00-69.99 points
- F = 0-59.99 points (Grades are not rounded up)

Teaching Strategies
This course is an asynchronous course with a synchronous Collaborate component (required). Collaborate sessions will be on Wednesdays from 10am to 11am and 6pm to 7pm, students have to pick the time that is most convenient for them. Students will also participate in Discussion and respond to one peer’s post. Students are expected to be “active learners.” It is a basic assumption of the instructor that students will be involved (beyond the materials and lectures presented in the course) discovering, processing, and applying the course information using peer-review journal articles, researching additional information and examples on the Internet, and discussing course material and clinical experiences with their peers.

(The instructor reserves the right to modify this syllabus throughout the semester if necessary.)
Assignment and Activity Descriptions

*Please note: Rubrics for all assignments and activities are located at the end of this syllabus.

Professional Performance 10%
This is relevant to participation in Collaborate Sessions on Mondays at 6:00 pm, these are not required but suggested for success; Professional communication with students and professor; discussions and journals; and any other course activities.

Discussions/Journal Entries 20%
There will be various graded Discussion, journal entries, and/or case studies over the course of the class. Students are required to complete assignment, discussions, journals, case studies, respond to peer posts in a timely manner. Engagement in all course activities, is the student’s responsibility. The expectation for students in a social work program is that they are motivated to learn and are dedicated to their studies.

Use Good "Netiquette":

- Check the discussion frequently and respond appropriately and on subject.
- Focus on one subject per message and use pertinent subject titles. (especially when responding to a peers post, use the peers name)
- Capitalize words only to highlight a point or for titles. Otherwise, capitalizing is generally viewed as SHOUTING!
- Be professional and careful with your online interaction. Proper address for faculty is by formal title such as Dr. or Ms. unless invited by faculty to use a less formal approach. (I go by Ms. Russo)
- Cite all quotes, references, and sources.
- When posting a long message, it is generally considered courteous to warn readers at the beginning of the message that it is a lengthy post.
- It is extremely rude to forward someone else’s messages without their permission.
- It is fine to use humor, but use it carefully. The absence of face-to-face cues can cause humor to be misinterpreted as criticism or flaming (angry, antagonistic criticism). Feel free to use emoticons such as Jk or :) to let others know you are being humorous.

(The "netiquette" guidelines were adapted from Arlene H. Rinald's article, The Net User Guidelines and Netiquette, Florida Atlantic University, 1994, available from Netcom.)

Examinations 40%
There will be 4 exams for this class. Each of these examinations will be worth 10% of your total course grade. Each of the exams will be administered via Blackboard using the Respondus Monitor and LockDown browser. You may not use notes, PowerPoint lectures, textbooks, or other materials to take the exam.

(The instructor reserves the right to modify this syllabus throughout the semester if necessary.)
Client Assessment Research Paper 30%

Each student will write a research, between **9 and 10 pages in length**, including the cover and reference pages, which strictly conforms to the most recent edition of the APA style manual, based on a client system that they are interested in working with in the future. Each student will need to have no less than **5 peer reviewed journals/books** that will be used for this paper. Each paper must contain the following elements:

I. Client System—Research and Define an individual client system that you are interested in.
   A. Define Micro level social work practice
   B. Discuss diversity issues faced by your client including mechanisms of oppression and discrimination. How will you negotiate, mediate, and advocate with and on behalf of your client?
   C. Identify personal biases that could impact your interaction with the client and discuss how you will manage those biases.

II. Evidence Based Practice (EBP)
   A. Research and define an Evidence Based Practice that is commonly used with the client system that you have picked.
   B. How does this EBP meet the needs of your client and enhance their capacity?
   C. Would another EBP be more effective in meeting your client’s needs?

III. General Intervention Model (GIM)
   A. Research and define the General Intervention Model.
   B. How would you apply the GIM to your client?
   C. Discuss how the Code of Ethics applies to your intervention with the client and identify relevant laws
   D. How will you analyze, monitor, and evaluate the interventions used? What methods are appropriate for evaluation of outcomes? Do you foresee any difficulties for your client or yourself in any of the steps of the GIM.

Assignment Submission

All assignments MUST be submitted through the Assignments link in the Blackboard site. This is for grading, documenting, and archiving purposes. Issues with technology use arise from time to time. If a technology issue does occur regarding an assignment submission, email me at ingrid.russo@angelo.edu and attach a copy of what you are trying to submit. Please contact the IT Service Center at (325) 942-2911 or go to your Technology Support tab to report the issue. This lets your faculty know you completed the assignment on time and are just having problems with the online submission feature in Blackboard. Once the problem is resolved, submit your assignment through the appropriate link. This process will document the problem and establish a timeline. Be sure to keep a backup of all work.

(The instructor reserves the right to modify this syllabus throughout the semester if necessary.)

Grading Rubrics

Student Evaluation of Faculty and Course

Students in all programs are given the opportunity to evaluate their courses and the faculty who teach them. Evaluations are most helpful when they are honest, fair, constructive, and pertinent to the class, clinical experience, or course. Faculty value student evaluations, and use student suggestions in making modifications in courses, labs and clinical experiences. Angelo State University uses the IDEA (Individual Development and Educational Assessment) system administered through Kansas State University for all course evaluations. The Office of Institutional Research and Assessment administers IDEA for the entire university, online and has established a policy whereby students can complete course evaluations free from coercion.
