Grading System
Course grades will be dependent upon completing course requirements and meeting the student learning outcomes.

The following grading scale is in use for this course:

- A = 90.00-100 points
- B = 80.00-89.99 points
- C = 70.00-79.99 points
- F = 0-69.99 points

(Grades are not rounded up)

Teaching Strategies
Students are expected to be “active learners.” It is a basic assumption of the instructor that students will be involved (beyond the materials and lectures presented in the course) discovering, processing, and applying the course information using peer-review journal articles, researching additional information and examples on the Internet, and discussing course material and clinical experiences with their peers.

Assignment and Activity Descriptions
Application Papers 35%

Students will write 3 short papers related to the application of specific skills from the chapters.

Application 1:

You are the director of a new program for the treatment of adolescent eating disorders. You are a believer in participative management methods. Which of the following decisions should be made with input from the professional staff. Should they be asked to even discuss it and make recommendations? Please include answers to the following in your 2-3 page (not including title and reference pages) write up.

1. Who should be interviewed about the new program by a reporter for the local newspaper?
2. What will be the lunch schedule for staff members?
3. What computer software should be purchased for staff use?
4. What criteria should be used for referring patients for inpatient treatment?
5. You have found $600 in the budget that can be used for additional office equipment. How should it be spent?
6. Which professional staff member should receive the title “Senior Clinician” and the $500 salary increase that goes with the title?
**Application 2:**

Assume that all the organizations described below are large; they have way too many staff members for the director to effectively manage without some form of departmentation to divide into manageable work units. What form or forms of departmentation might work best? Why?

1. A full-service organization for people who are homeless whose staff members engage in a variety of activities to help clients of all ages and both genders to become independent and able to care for themselves.
2. An agency whose mission is to serve the people defined as “frail elderly” throughout the county by offering a variety of health services in their homes.
3. An organization whose mission is to reduce fatal traffic accidents by educating drivers to the dangers of texting while driving, driving while under the influence of alcohol or other drugs, and other unsafe practices.
4. A rehabilitation center serving people who have suffered a traumatic brain injury as well as their families.
5. An organization whose mission is to help people with developmental disabilities that running several group homes, providing sheltered workshops, and so forth.

**Application 3:**

Select 2 of the following events that might occur in human service organizations and discuss what you think would be the best method or methods for a manager to address them?

1. You are the executive director of the organization. You read the online version of the morning paper and see a member of your staff quoted in an article on “glass ceilings” for women. She is quoted as saying, “Where I work, sexism is rampant. Women are overworked and exploited. No women can ever expect to advance beyond the level of supervisor.” (You believe that there is no truth to any of these accusations. The staff member is a competent and valued employee).
2. Your office manager tells you that a staff member has asked her to order 5 green notebooks of a specific brand “to help me keep my correspondence better organized.” The office manager wants to know if she should purchase them for her at a cost of $15 apiece. She tells you that her daughter attends the same school as the staff member’s son. The notebooks are exactly the ones described in a notice sent to all parents announcing that they are required for purchase by all students.
3. You are the director of an after-school youth activity center for adolescent boys. You observe that a newly hired female social worker, a recent MSW, has been showing up to work in low cut tank tops and very short skirts and has been very “flirtatious” with several of the boys. None of the other staff members dress or act this way.
4. A client called to complain about a phone call that she received. It was from her social worker’s husband. He was offering to give her a free estimate on vinyl siding for her home. After making some inquiries, you learn that the social worker (who you supervise) has provided her husband with a list of the names and phone numbers of several of her clients whose home she has visited.

5. Two different staff members have reported to you that one of your low-paid and dedicated paraprofessionals has been going through boxes of charitable donations to your agency and removed some of the better children’s clothes to take home for her granddaughter.

6. In reviewing recent financial records, you notice that one of your social workers has been billing the county Department of Social Services for 2 hours of treatment when she sees a couple together for one hour of counseling and three or more hours when she sees a family for an hour for conjoint family therapy.

Plagiarism is the presentation of someone else's information as though it were your own.
If you use the words or ideas of another person; or if you use material from any source—whether a book, journal, magazine, newspaper, business publication, broadcast, speech, electronic media, or any other source—you must acknowledge that source. Plagiarism on the term paper will result in the student not receiving credit for her/his term paper, among other consequences

Interview Presentation 25%

Students will prepare a video presentation involving all the skills learned in the course. The video presentation will be a mock interview for a director position at an agency of your choosing. Students are asked to support their presentations using information from scholarly resources (e.g., peer reviewed journal articles, books, creditable internet sources). An outline will be provided to the instructor (including references) via submission link. Please include the following in your video presentation:

1. Introduce yourself and outline your education and work history.
2. Discuss any supervisory experience you have (if none, you can skip this)
3. Discuss your leadership style and how you would create a positive work environment (Chapter 4)
   a. Promote teamwork
   b. Build mutual respect
4. Discuss how you would influence the day-to-day activities of your employees (Chapter 6)
5. How would you organize your staff and the tasks they are responsible for? (Chapter 7)
6. Discuss your plan to recruit and hire a diverse staff, and how you would manage diversity at the agency. (Chapter 8)

7. Discuss how you would promote a productive work environment related to individual motivation, supervision, and other factors that affect job performance. (Chapter 9)

8. Share your plan to promote professional growth, manage staff problems, manage your budget, and improve technology. (Chapters 10-12)

9. Finish by thanking the agency for the opportunity to speak with them and wrap things up in a professional manner.

Chapter Presentation 20%

Each student will be assigned a chapter from the textbook and be able to present a summary of the chapter in class for 50 minutes. Students will be critiqued on their presentation style, communication ability, and knowledge of the chapter content. Students may present the chapter summary in any format they feel, such as power points, classroom activities, handouts, etc. As advanced standing MSW students, you need to be able to demonstrate command, understanding, and the ability to communicate the knowledge, values, and skills of the social work profession.

Comprehensive Exam 20%

There will be one comprehensive exam covering the material from the entire course material. Students are expected to be able to retain and apply the material from the course and this will be assessed by the use of a comprehensive exam during finals week.

Assignment Submission

All assignments MUST be submitted through the Assignments link in the Blackboard site. This is for grading, documenting, and archiving purposes. Issues with technology use arise from time to time. If a technology issue does occur regarding an assignment submission, email me at joel.carr@angelo.edu and attach a copy of what you are trying to submit. Please contact the IT Service Center at (325) 942-2911 or go to your Technology Support tab to report the issue. This lets your faculty know you completed the assignment on time and are just having problems with the online submission feature in Blackboard. Once the problem is resolved, submit your assignment through the appropriate link. This process will document the problem and establish a timeline. Be sure to keep a backup of all work.

Late Work or Missed Assignments Policy

The course is set up on weekly modules. The week begins on Sunday and ends on Saturday. Assignment due dates are shown on the calendar/schedule or posted within Blackboard. Failure to submit your assignments on the assigned date will result in no credit awarded for the assignment. No papers or postings will be accepted after the due date indicated in the syllabus.
unless the late assignment is due to a university approved absence defined in the graduate catalog.

Make-up work will be considered on a case-by-case basis and will only be allowed for university approved absences.

**Student Evaluation of Faculty and Course**

Students in all programs are given the opportunity to evaluate their courses and the faculty who teach them. Evaluations are most helpful when they are honest, fair, constructive, and pertinent to the class, clinical experience, or course. Faculty value student evaluations, and use student suggestions in making modifications in courses, labs, and clinical experiences.
Angelo State University uses the IDEA (Individual Development and Educational Assessment) system administered through Kansas State University for all course evaluations. The Office of Institutional Research and Assessment administers IDEA for the entire university, online and has established a policy whereby students can complete course evaluations free from coercion.

The Student Learning Outcome’s that are considered “essential” include:

1. Gaining a basic understanding of the subject (e.g., factual knowledge, methods, principles, generalizations, theories)
2. Developing specific skills, competencies, and points of view needed by professionals in the field most closely related to this course
