Course Information

Course Description
A supervised field education experience of at least 200 hours in an approved agency appropriate to social work; fosters the integration of classroom knowledge, values, and ethics with practice-based knowledge that seeks to increase practice skills and promotes professional competence. The social work field education experience, sometimes called “field education,” “practicum,” “internship,” and so forth is paramount to the development of social work students. The field education experience is a central form of instruction and learning in which professional socialization occurs, and the field experience builds upon the core social work curriculum. This course has two parts that occur concurrently. Part I of the course is what is called a field education seminar. During this part of this course students will meet with the instructor for one hour a week during the semester. In the field education seminar students receive their agency and class assignments, review the field education experience requirements, make contact with their agency supervisor, develop a learning plan, and review the NASW Code of

(The instructor reserves the right to modify this syllabus throughout the semester if necessary.)
Part II of the course is the actual field education experience. Students are required to complete 200 hours; 10 hours of classroom education and 15 hours of supervised experience at their assigned agency site. It is during the supervised field education experience where students learn to integrate theoretical and conceptual knowledge learned in the classroom with practical experience of doing generalist social work. This is a time when social work students are allowed to put to use the knowledge learned, practice the skills, and exercise the values/attitudes that they have discussed and learned in the classroom. During the second portion of the course, students are required to meet with their agency supervisor for at least one (1) hour each week; additional meetings may be necessary depending on the agreements between the student and the student’s agency supervisor.

Grading System
Course grades will be dependent upon completing course requirements and meeting the student learning outcomes.

The following grading scale is in use for this course:
- A = 90.00-100 points
- B = 80.00-89.99 points
- C = 70.00-79.99 points

Teaching Strategies
Students are expected to be “active learners.” It is a basic assumption of the instructor that students will be involved (beyond the materials and lectures presented in the course) discovering, processing, and applying the course information using peer-review journal articles, researching additional information and examples on the Internet, and discussing course material and clinical experiences with their peers.

(The instructor reserves the right to modify this syllabus throughout the semester if necessary.)
Assignment and Activity Descriptions

*Please note: Rubrics for all assignments and activities are located at the end of this syllabus.

Completed Professional Development Plan/Learning Contract and Schedule 20%

By class time of the third (3rd) week of the course, students will submit a completed Professional Development Plan/Learning Contract as well as a completed Schedule form to the Social Work Field Education Liaison. The professional development plan/learning contract will detail the specific work assignments and activities through which students will achieve each of the practice behaviors. This document will need to be signed by the student, the student’s Field Instructor first, and then by the Social Work Field Education Liaison or Director.

Students will also attach their agency’s job description for their position or the most similar position to a social worker. You will utilize your job description to assist you in developing activities to meet your learning objectives. Be as specific as possible. As a graduate generalist social work student, your learning goals should reflect efforts to demonstrate skills in each practice behavior as stated by the Council on Social Work Education (CSWE) and the Social Work Program at Angelo State University. These learning goals will become the basis for evaluating your accomplishments and performance during your Field Education experience.

The student is the main author of the learning plan. The field instructor will provide minimal assistance and guidance, and final acceptance of the plan/contract. The Field Instructor is not to complete this document. Students are expected to struggle with this and learn in the process of creating it. This document will need to be signed by the student, the student’s Field Instructor first, and then by the Social Work Field Education Liaison or Director.

Time Sheets/Supervision Log 0%

- You will submit a filled out time sheet form and supervision log each week that records the quantity of hours that you completed in your field education experience each week.
- In order for any time-sheet to be accepted and included for cumulative hours, each time-sheet will have to meet the following criteria:
  - Signed and dated original by both student and field instructor
  - Minimum of 1 hour of supervision documented for that week
  - Form is completed and accurate, with accurate calculations both within the time-sheet and from one week to another (this includes a complete and accurate heading)
  - A corresponding weekly writing assignment submitted, with a minimum of

(The instructor reserves the right to modify this syllabus throughout the semester if necessary.)
60% for that writing assignment (if the writing assignment is not submitted and/or 1 hour of supervision is not added to time sheet then the hours for that week will not be accepted)

- Must meet the minimum hours per day as specified in Field Manual
- Enter time accurately. Do not round.

**Please note:** Hours for Field Education II are not a continuation of hours for Field Education I. You must accrue a minimum of 190 hours at your field placement and 10 hours in field seminar each semester. Also, you cannot complete your time at field placement prior to dead week.

**Journal Submissions**

Students will submit a report about their experience at their field agency during each week in which hours for field education were accrued. These reports can take the form of a summary, a process recording, a letter of advocacy, or sections of the integrated paper. The course schedule will determine which type of assignment is due any given week.

Assignments will include discussion of student activities during the week

1. skills learned or practiced
2. information learned
3. ethical issues
4. trainings
5. meetings
6. contact with clients
7. conflicts
8. supervision
9. self-reflection and self-assessment of their performance
10. sentinel events
11. any other pertinent information.

Required elements: Students will include a reference to and discussion of how their field experience during the applicable week relates to all the requirements:

1. NASW Code of Ethics/scope of practice
2. Apply a competency/practice behavior
3. Apply a Code of Conduct/or policy (federal/agency)
4. Minimum of 1 peer-reviewed social work journal article with an emphasis on evidenced based practice. Students may also provide research on best practices, additional information on the population, problem being faced, agency, intervention, assessment, etc. This article cannot be reused from some other aspect of a Field Education or social work assignment. **In essence, the article should answer the questions- “Why are you, or the staff of your agency,**

(The instructor reserves the right to modify this syllabus throughout the semester if necessary.)
or your agency as a whole engaging in a particular practice, program, or project? How do you know your interventions and assessments are effective?"

Scoring will be based on the instructor’s assessment of student’s introspection, insight, and effort. Potential scores are as follows: 100 for assignment that fully meets necessary requirements, 60 for assignment completed but does not fully meet expectations, and 0 for assignment not submitted or evidences an absence of effort to achieve any of the above goals.

- **Summary**: Summarizes on a daily basis the activities of the student to include any of the above pertinent aspects.

- **Process Recording**: A written record of a discreet interaction where the student records the dialogue of both the student and other pertinent participants, but also includes the mental process of the student prior to, during, and after the discreet interaction.

- **Advocacy Letter**: Students will select an issue pertinent to their field setting in which advocacy is appropriate. The letter will present a cogent argument for change to a particular policy, program/organization, or practice, or the creation of a policy, program, or practice to improve social and economic justice for the clients served by the field agency. The letter will be addressed to a particular individual who can be part of the necessary change. The individual could be an elected or appointed governmental official or an agency official with whom authority resides to make or foster the recommended actions.

**Mid-Term Evaluation 20%**

By the end of the 7th week of the course, students and Field Instructors will collaboratively complete a mid-term evaluation of the student’s practice knowledge, values, attitudes, and skills. **In order to promote self-evaluation, students will first independently complete an evaluation. This evaluation will be submitted to the Field Instructor.** Student and Field Instructor will then complete the evaluation collaboratively. The completed evaluation will be submitted to the Social Work Field Education Liaison. This document will need to be signed by the student, the student’s Field Instructor first, and then by the Social Work Field Education Liaison or Director.

The Field Instructor will recommend a grade for the student on this document. The Social Work Field Education Liaison will ultimately assign the grade to the student considering all relevant factors presented in this syllabus. This document will need to be signed by the student, the student’s Field Instructor, and by the Social Work Field Education Liaison or Director after being reviewed by all parties.

(The instructor reserves the right to modify this syllabus throughout the semester if necessary.)
Students are required to address NASW Code of Ethics each week in supervision. If a student has not initiated a discussion of at least one ethical standard from NASW Code of Ethics each week during supervision, the student’s mid-term evaluation grade will be lowered 10 points.

- Review guidelines on originals and copies

**Final Evaluation 40%**

By the end of the 14th week in the course, students and Field Instructors will collaboratively complete a mid-term evaluation of the student’s practice knowledge, values, attitudes, and skills. **In order to promote self-evaluation, students will first independently complete an evaluation. This evaluation will be submitted to the Field Instructor.** Student and Field Instructor will then complete the evaluation collaboratively. The final evaluation will be submitted to the Social Work Field Education Liaison.

Students are required to address NASW Code of Ethics each week in supervision. If a student has not initiated a discussion of at least one ethical standard from NASW Code of Ethics each week during supervision, the student’s final evaluation grade will be lowered 10 points.

By the day of the final site visit meeting (usually during weeks 14 & 15), students and Field Instructors will collaboratively complete a final evaluation of the student’s practice knowledge, values, attitudes, and skills. **In order to promote self-evaluation, students will first independently complete an evaluation. This evaluation will be submitted to the Field Instructor (no later than the end of the 6th week, but depending on the day of the site visit, it may need to be completed earlier).** Student and Field Instructor will then complete the evaluation collaboratively. The completed evaluation will be submitted to the Social Work Field Education Liaison. This document will need to be signed by the student, the student’s Field Instructor first, and then by the Social Work Field Education Liaison or Director.

**Assignment Submission**

All assignments MUST be submitted through the Assignments link in the Blackboard site. This is for grading, documenting, and archiving purposes. Issues with technology use arise from time to time. If a technology issue does occur regarding an assignment submission, email me at samuel.gallander@angelo.edu and attach a copy of what you are trying to submit. Please contact the IT Service Center at (325) 942-2911 or go to your Technology Support tab to report the issue. This lets your faculty know you completed the assignment on time and are just having problems with the online submission feature in Blackboard. Once the problem is resolved, submit your assignment through the appropriate link. This process will document the problem and establish a timeline. Be sure to keep a backup of all work.

**Late Work or Missed Assignments Policy**

**POLICY ON LATE OR MISSED ASSIGNMENTS**

The course is set up on weekly modules. The week begins on Monday and ends on Sunday. Assignment due dates are shown on the calendar/schedule or posted within Blackboard. Failure to submit your assignments on the assigned date will result in a grade of 0. The only exceptions made will be if students have a university approved excuse found in the catalog.

**General Policies Related to This Course**

All students are required to follow the policies and procedures presented in these documents:

- [Angelo State University Student Handbook](#)
- [Angelo State University Catalog](#)

(The instructor reserves the right to modify this syllabus throughout the semester if necessary.)
Student Responsibility and Attendance

This class is asynchronous, meaning you do not have to be on-line at a certain time. There are readings which you will have to complete to be able to adequately participate in individual and group assignments. In order to complete this course successfully, you do have to participate in all course activities i.e. discussion boards, course projects, reflective logs, etc. Students are expected to engage in course activities and submit work by due dates and times. The hope is that students will make substantive contributions which reflect integration of assigned materials as well as any outside readings as appropriate. Scholarly contribution is an expectation. For planning purposes, this class will probably require a minimum of 6-9 study hours per week on average.

Note: This course utilizes Collaborate to engage in role plays, case study, and interaction. A day and 2 session times will be offered for students to have some flexibility. Attendance is mandatory. Collaborate times will be posted in Banner and a reminder email will be sent the day of the sessions.

Scoring rubric for weekly written assignments:

| 100 | Includes the appropriate heading |
| Logical formatting |
| Turned in on-time |
| The written product provides the instructor with sufficient and appropriate information about the student’s activities related to field education experience for the assigned week. |
| All required elements are included |
| All required elements are identified (e.g., Code of Conduct (8) “A social worker shall be responsible for setting and maintaining professional boundaries.”) and the student’s discussion is an appropriate description of how their field experience satisfied/fulfilled/related to that required element. |
| Does not include the appropriate heading |

(The instructor reserves the right to modify this syllabus throughout the semester if necessary.)
Turned in 1-3 days late (if accepted by instructor)

The written product does not provide the instructor with sufficient information about the student’s activities related to field education experience for the assigned week. (i.e., The instructor could not intelligently discuss the student’s activities, skills learned or practiced, information learned, ethical issues, trainings, meetings, contact with clients, conflicts, supervision, self-reflection and self-assessment of their performance, sentinel events, or any other pertinent information in an informed manner.

1-2 of the required elements are omitted

The instructor cannot identify the required element from the student’s presentation.

The student’s discussion of how their field experience satisfied/fulfilled/related to a required element does not, in fact, satisfy/fulfil or relate to the required element as described (e.g., the student identifies consultation from TBSWE Scope of Practice, but then goes on to discuss the practice of supervision).

The written product is absent

The written product provides the instructor with little to no insight into the student’s activities during the week

3 or more of the required elements are omitted.

Student Evaluation of Faculty and Course

Students in all programs are given the opportunity to evaluate their courses and the faculty who teach them. Evaluations are most helpful when they are honest, fair, constructive, and pertinent to the class, clinical experience, or course. Faculty value student evaluations, and use student suggestions in making modifications in courses, labs and clinical experiences. Angelo State University uses the IDEA (Individual Development and Educational Assessment) system administered through Kansas State University for all course evaluations. The Office of Institutional Research and Assessment administers IDEA for the entire university, online and has established a policy whereby students can complete course evaluations free from coercion.

1. Gaining a basic understanding of the subject (e.g., factual knowledge, methods, principles, generalizations, theories)

(The instructor reserves the right to modify this syllabus throughout the semester if necessary.)
2. Developing knowledge and understanding of diverse perspectives, global awareness, or other cultures
3. Learning to apply course material (to improve thinking, problem solving, and decisions)
4. Developing specific skills, competencies, and points of view needed by professionals in the field most closely related to this course
