Phone: 325-486-6851  
Office: HHS 318W  
Office Hours:  
Monday: 1200 – 1500  
Tuesday: (Clinical) Call/email for appointment  
Wednesday: 1st 8 weeks: 1200 – 1500, 2nd 8 weeks: 0930 – 1230  
Thursday: (Clinical) Call/email for appointment  
Friday: (Meetings) Call/email for appointment  
*Please contact me if you require a specific date and time as I am happy to accommodate student needs to the best of my ability.

Course Information

Course Description

This course focuses on research-based care of childbearing and childrearing families. Students learn processes, concepts and standards of care related to pregnancy, labor, childbirth, newborns, infants, children, adolescents, and their families. Students review common acute, chronic, and behavioral pediatric and obstetric conditions and complications.

Course Credits

(3-0-0)

Course Overview

We have designed this course (in conjunction with the NUR 4212 clinical course) to follow a framework of learning so as to support your individual learning needs. The design intentions follow four basic design principles of learning including being Learner-Centered (i.e. offering autonomy, putting the student in charge of his/her learning, etc.), Community-Centered (i.e. realizing the
benefit of learning in groups), Knowledge-Centered (i.e. realizing that a basic command of knowledge in OB and PEDS content is essential to functioning in this unique area of the nursing field), and Assessment-Centered (i.e. striving to identify and help students develop the ability to identify learning gaps and needs). We have designed a series of classes and assignments to address each of the areas noted in the course description in a meaningful and real-life way.

**Prerequisite and Co-requisite Courses**

Co-requisite Courses: NUR 4212 Obstetrics and Pediatric Nursing Practicum

Other courses taken in 3rd semester: NUR 4305 Research: An Evidence-Based Approach to Care, NUR 4221 Adult Health II Nursing Practicum, & NUR 4411 Adult Health Nursing II.

**Prerequisite Skills**

Accessing internet web sites, use of ASU Library resources, and proficiency with Microsoft Word and/or PowerPoint are an expectation of the Generic BSN program. Computer requirements are further delineated in the Department of Nursing Undergraduate Student Handbook. Tutorials for ASU Library and for Blackboard are available through RamPort. The ASU Nursing Program Undergraduate Student Handbook should be reviewed before taking this course.

**BSN Program Outcomes**

Upon completion of the program of study for the Generic BSN, the graduate will be prepared to:

1. Integrate nursing and related theories into the planning and/or delivery of safe nursing care
2. Engage leadership concepts, skills and decision-making in the planning and/or implementation of patient safety and quality improvement initiatives
3. Identify and appraise best research evidence to improve and promote quality patient outcomes
4. Utilize technology to access information, evaluate patient data, and/or document care
5. Participate in political/legislative processes to influence healthcare policy
6. Engage in effective collaboration and communication within interdisciplinary teams
7. Design and/or implement health promotion & disease prevention strategies for culturally competent care
8. Demonstrate standards of professional, ethical, and legal conduct
9. Practice and/or coordinate, at the level of the baccalaureate prepared nurse, to plan and/or implement patient centered care

**Student Learning Outcomes**

Course Delivery

The majority of course meetings will occur face-to-face on Mondays from 0900-1150 in HHS 306. There are a few days when this course will be delivered in an online format using the Blackboard (Bb) course management system ASU's Blackboard Learning Management System.

Required Texts and Materials

Recommended Texts and Materials

Drug guide of choice  
Medical dictionary of choice  
Manual of diagnostic labs of choice  
Nursing care planning book of choice

Technology Requirements

To successfully complete this course, students need a computer with MAC or Windows Operating System and High Speed Internet Access

To participate in one of ASU’s distance education programs, you need this technology:

- A computer capable of running Windows 7 or later, or Mac OSX 10.8 or later  
- The latest version of one of these web browsers: internet Explorer, Firefox, or Safari  
- Microsoft Office Suite or a compatible Open Office Suite  
- Adobe Acrobat Reader  
- High Speed Internet Access  
- Ethernet adapter cable required (wireless connections can drop during tests and Collaborate sessions)  
- Webcam

Refer to Angelo State University’s Distance Education website for further technology requirements: Angelo State University's Distance Education Website
Covid Infection Control Precautions

Please refer to the Angelo State University Nursing Department Undergraduate Student Handbook for more guidance on Covid infection control precautions and policies. Students may also access pertinent information regarding Covid infection control under the COVID – Infection Control link in the NUR 4322 Blackboard course

Topic Outline

Topic outline and schedule can be found below and within Blackboard

Communication

Faculty will respond to email and/or telephone messages within 24-36 hours during working hours Monday through Friday. Weekend messages may not be returned until Monday. Written communication via Blackboard: It is an expectation of this class that you use formal writing skills giving appropriate credit to the source for your ideas. Follow APA (2010) 6th edition (2nd Printing or higher only) guidelines for referencing. Written communication via email: All private communication will be done exclusively through your ASU email address. Check frequently for announcements and policy changes.

Use Good "Netiquette":

- Check the discussion frequently and respond appropriately and on subject.
- Focus on one subject per message and use pertinent subject titles.
- Capitalize words only to highlight a point or for titles. Otherwise, capitalizing is generally viewed as SHOUTING!
- Be professional and careful with your online interaction. Proper address for faculty is by formal title such as Dr. or Ms./Mr. Jones unless invited by faculty to use a less formal approach.
- Cite all quotes, references, and sources.
- When posting a long message, it is generally considered courteous to warn readers at the beginning of the message that it is a lengthy post.
- It is extremely rude to forward someone else’s messages without their permission.
- It is fine to use humor, but use it carefully. The absence of face-to-face cues can cause humor to be misinterpreted as criticism or flaming (angry, antagonistic criticism). Feel free to use emoticons such as J or :) to let others know you are being humorous.

(The "netiquette" guidelines were adapted from Arlene H. Rinald's article, The Net User Guidelines and Netiquette, Florida Atlantic University, 1994, available from Netcom.)
Grading

Evaluation and Grades
Course grades will be determined as indicated in the table below.

Grading System
Course grades will be dependent upon completing course requirements and meeting the student learning outcomes.

The following grading scale is in use for this course:

- A = 90.00-100 points
- B = 80.00-89.99 points
- C = 70.00-79.99 points
- D = 60.00-69.99 points
- F = 0-59.99 points (Grades are not rounded up)
Course grades will be dependent upon meeting the learning objectives and completing course requirements. Students must successfully complete NUR 4322 and NUR 4212 simultaneously to receive credit in either course. *All grades to include final course grade, assignments, and exams are not rounded up to the nearest whole number.*

**Teaching Strategies and Methods**

Students are expected to be “active learners.” It is a basic assumption of the instructor that students will be involved (*beyond the materials and lectures presented in the course*) discovering, processing, and applying the course information using peer-review journal articles, researching additional information and examples on the Internet, and discussing course material and clinical experiences with their peers.

- Readings (Textbooks/ Handouts/ Internet resources)
- Lecture/Discussions/Online modules
- NCLEX practice questions/tests
- Case studies/Demonstrations
- Written assignments
- Tests / Quizzes

**Assignment and Activity Descriptions**

*Please note: Rubrics for all assignments and activities are located at the end of this syllabus.*

Learning outcomes will be assessed by student performance on tests, the guidebook, group presentation and ATI assessments.

1. **OB & Pedi Exams:** The purpose of these exams is to evaluate the student’s mastery of assigned reading material and competence in meeting course objectives. There are two (2) exams for the OB section and three (3) exams for the PEDI sections of this course. Tests are time limited. If a student arrives late for a test, (s)he will only be allowed the remaining time to complete the test. Students who are tardy will not be allowed to take the test in the event another student has already completed the exam and exited the testing room. Please see policies below on LATE WORK OR MISSED ASSIGNMENTS POLICY, EXAM COUNSELING, and POLICY ON EXAM REVIEWS.

2. **OB & PEDI ATI Topic Quizzes:** The purpose of these quizzes is to engage the students into the ATI learning resource and allow the students and instructor to assess retention of the assigned ATI readings for that specific class day. These quizzes consist of questions pulled from the assigned ATI readings outlined in the “Course Schedule” of the syllabus. The quizzes are **ONLINE** in Blackboard. Please refer to the course schedule at the end of the syllabus for a breakdown of when each quiz is scheduled. A grade of “zero” will be given if a student does not complete the quiz within the open timeframe. The quiz must be completed once started. The time limit for each quiz will be designated within the quiz instructions on Blackboard.
3. **PDES Developmental Screening Quiz:** The purpose of this quiz is to expand your knowledge and retention of lecture topics by being able to apply information learned within an interactive module format. Quiz due date is posted below.

4. **Classroom Participation:** The purpose of classroom participation is to allow you the opportunity to engage in class content i.e. asking questions, offering ideas to the group, listening actively to discussions, etc. as a way to help you develop a broader understanding of obstetric and pediatric nursing content. This part of the course will entail your active engagement during required classroom times. Your classroom participation grade will also be based on attendance (either online or face-to-face). Failure to attend either a PEDI or OB class, will result in points deducted. If class is held online, completion of recorded lectures is expected to receive participation points. Exceptions can be made at the discretion of the instructor/academic departmental team. Your instructor will notify you how and when you are required to attend class.

5. **ATI Tests:** The purpose of these tests is to evaluate the student’s mastery of assigned material and competence in meeting course objectives. ATI tests evaluate student level of competence in obstetrics and pediatric nursing material using the ATI system. There are several requirements for this part of the course grading system. See below for details.

**ATI Practice Exams, Comprehensive Exams, and Test Remediation**

1. Complete RN Maternal Newborn Online Practice 2019A **AND** RN Nursing Care of Children Online Practice 2019A through ATI Testing. Once you have taken the assessment, you will complete the allotted time (see rubric below) within the focused review based on your score. As you complete the focused review provided by ATI, you will complete the active learning template(s) (ALTs) provided. **ALL ALTs MUST BE HANDWRITTEN** (handwriting must be legible), scanned in, and submitted via blackboard by the following due dates: RN Maternal Newborn Practice 2019 A due by 3/9/22 by 2359; RN Nursing Care of Children Practice 2019A due by 5/1/22, by 2359. Students only need to submit a **MAXIMUM of 20 ALTs (for practice exams A)** if their focused review indicates more than 20 are indicated.

2. Complete RN Nursing Care of Children Online Practice 2019B through ATI Testing **AND** RN Maternal Newborn Online Practice 2019B. Students must take practice exam B by the above due dates and score **85% or higher on the first attempt** in order to receive full credit. Note: Take your time in completing this exam.

***For more practice prior to taking the proctored comprehensive exams, you are encouraged to complete the “Learning Systems RN 2.0” practice quizzes found under the “Tutorials, simulations, and quiz banks” tab on the ATI website (the quizzes are titled “Maternal Newborn 1 & 2” and “Nursing Care of Children 1 & 2”)**

3. You will take the ATI RN Maternal Newborn 2019 Proctored Exam on **3/10/22 from 1500-1700** and the RN Nursing Care of Children 2019 Proctored Exam on **5/2/22 from 0900-1100** **in the HHS Testing Center (HHS 126).** Each exam is around 70 questions long and you are allotted approximately 70 minutes per exam.

4. This ATI assignment is **10%** of your course grade (The RN Maternal Newborn practice exams, proctored exam, and remediations account for 5% and the RN Nursing Care of Children practice exams, proctored exam, and remediations account for 5%).
Active Learning Template Guidelines

- All ALTs MUST be handwritten in order to receive credit. You will scan in and submit all handwritten ALTs to Blackboard.
- Make sure your ALT topic and category matches what is identified in your focused review or it will not be accepted.
- DOUBLE CHECK your submission to ensure all ALTs required are completed, accounted for, and are submitted to the correct link or you will not receive credit.

<table>

| **Level 1**
| 3 Points
| **Below Level 1**
| 1.5 Points

Assignment Submission

All assignments MUST be submitted through the Assignments link in the Blackboard site. This is for grading, documenting, and archiving purposes. Issues with technology use arise from time to time. If a technology issue does occur regarding an assignment submission, email me at lparker8@angelo.edu or ashley.jones@angelo.edu and attach a copy of what you are trying to submit. Please contact the IT Service Center at (325) 942-2911 or go to your Technology Support tab to report the issue. This lets your faculty know you completed the assignment on time and are just having problems with the online submission feature in Blackboard. Once the problem is resolved, submit your assignment through the appropriate link. This process will document the problem and establish a timeline. Be sure to keep a backup of all work.
Late Work or Missed Assignments Policy

- Due dates and times for assignments are posted.
- If you miss an exam or quiz, you will receive a zero for the missed exam or quiz. There are no make-up exams/quizzes. If you are late to an exam, then you will only be allowed the remaining dedicated time for that exam.
- **Late Work:** Due dates and times for assignments are posted. Failure to submit your assignments on the assigned date will result in a ten percent deduction (or more as determined by the instructor) for each day past the posted deadline. Assignments submitted more than three days past the deadline will result in a score of 0 as the assignment grade followed by a revised deadline due date, if the instructor so chooses.
- **Revisions of Assignments:** If a new submission deadline is given to the student by the instructor for submitting substandard work, there will be an automatic 15 point deduction taken (i.e. all revised assignments will start at an 85% as the maximum grade). Further revisions are at the discretion of the instructor.

Exam Counseling

A student receiving a grade of 75% or below on a test must receive test counseling. This counseling shall occur within one week after the exam unless otherwise noted by the instructor. Students are responsible for making appointments with their instructor for counseling. During this appointment, the student and faculty member will outline a written plan for improvement. Students in jeopardy of non-progression (performing below 70%) will be advised regarding their status before the last drop date. Readmission criteria are outlined in the current University Catalog.

Exam Reviews

Exam reviews provide students the opportunity to review exam content. An in-class OR online exam review (as indicated by the instructor) and the opportunity for an individual exam review (requested by the student) will be provided after each exam (with the exception of the final exam). The time, duration, place, and day of the review is determined by the course instructor. During in-class exam reviews, the instructor will review only the questions on the exam that were missed by the majority of the class. Regarding individual exam reviews, the student will be allowed to review questions, options, and correct answers on the respective exam with the instructor present and following along with them. Professional behavior will be expected throughout the process. Faculty will be present to answer questions during the exam review. If incivility occurs, then the student will be asked to leave the exam review at that time. Once a student has completed an exam review, no further request to review the same exam will be granted.

General Policies Related to This Course

All students are required to follow the policies and procedures presented in these documents:

- [Angelo State University Student Handbook](#)
Important University Dates

January 18th: Classes officially begin
March 14th-18th: Spring Break
April 28th: Last day to drop/withdraw
May 2nd-May 5th: Dead Week
May 9th-May 13th: Final Exams
May 14th: Spring Commencement

Student Responsibility and Attendance

Class attendance is necessary and required for successful and satisfactory completion of all course objectives; therefore, students must attend all course sessions. If a situation arises that prevents the student from attending, he or she should contact the instructor ASAP, preferably before lecture begins. **PLEASE DO NOT SCHEDULE APPOINTMENTS, WORK HOURS, ETC. DURING CLASS TIME.**

According to the undergraduate handbook, a week’s worth of cumulative absences in any one course will result in faculty evaluation of the student’s ability to meet course objectives and may result in failure of the course. Three tardies (over 5 minutes late for lecture, campus laboratory, or clinical) will equal 1 hour of absence. Failure to meet these requirements hinders the student’s ability to complete the course. Attendance will be checked for each lecture. **Your classroom participation grade will be based on attendance (either online or face-to-face).**

Failure to attend either a PEDI or OB class will result in points deducted. If class is held online, completion of recorded lectures or presence at a mandatory Bb collaborate meeting is expected to receive participation points. Exceptions can be made at the discretion of the instructor/academic departmental team. Your instructor will notify you how and when you are required to attend class.

Student Absence for Observance of Religious Holy Days

A student who intends to observe a religious holy day should make that intention known in writing to the instructor prior to the absence. See ASU Operating Policy 10.19 Student Absence for Observance of Religious Holy Day for more information.

Academic Integrity

Students are expected to maintain complete honesty and integrity in all work. Any student found guilty of any form of dishonesty in academic work is subject of disciplinary action and possible expulsion from ASU.

The College of Health and Human Services adheres to the university’s Statement of Academic Integrity.
Plagiarism
Plagiarism is a serious topic covered in ASU’s Academic Integrity policy in the Student Handbook. Plagiarism is the action or practice of taking someone else’s work, idea, etc., and passing it off as one’s own. Plagiarism is literary theft.

In your discussions and/or your papers, it is unacceptable to copy word-for-word without quotation marks and the source of the quotation. It is expected that you will summarize or paraphrase ideas giving appropriate credit to the source both in the body of your paper and the reference list.

Papers are subject to be evaluated for originality. Resources to help you understand this policy better are available at the ASU Writing Center.

Social Media Policy
The Angelo State University Nursing Program supports the use of social media in personal/nonacademic or non-professional contexts. Students may encounter confidential information within the academic or patient care environment during clinical practicum and must demonstrate professional behaviors and communication. Consistent with Code of Ethics for Nurses with Interpretive Statements [ANA, 2001], Nursing: Scope and Standards of Practice [ANA, 2nd ed., 2010], Nursing’s Social Policy Statement [ANA, 2010] and the ASU Confidentiality Statement all students sign at the beginning of their program, it is the Students’ responsibility to refrain from the following:

- Uploading images/videos of yourself in a clinical environment or uniform*
- Discussing patients, visitors, vendors, or organizational partners
- Talking about physicians, hospital/facility/clinical staff
- Discussing clinical events or news stories involving clinical partners
- Giving medical advice online
- ‘Friending’ or requesting to friend patients (even when they are no longer patients), Department/College faculty, or staff.
- The only exceptions are individual or group photos of the clinical group and faculty.

ASU nursing faculty reserves the right to order the immediate removal of inappropriate items (HIPPA violations, etc.) that are posted on a student’s social media site. Students preparing to enter the nursing workforce have a professional obligation to understand the nature and consequences of participating in social networking of all types [blogs, Twitter, Facebook, etc.]. Patient privacy is a fundamental ethical and legal obligation of nurses. Although social networking venues offer opportunities for mentoring and sharing needed health related education and information among colleagues and the lay public it also presents risk. The use of privacy settings and the separation of personal from professional information is not guaranteed from being shared or made public in less protected forums. Online content and behavior has the potential
to enhance or undermine the individual student's career and/or the academic institution they attend. Students should consider the 'unintended consequences' of any information they share outside the context in which it was learned. [adapted from Principles: Social Networking and the Nurse [Draft 25 April 2011], American Nurses Association]

**Accommodations for Students with Disabilities**

ASU is committed to the principle that no qualified individual with a disability shall, on the basis of disability, be excluded from participation in or be denied the benefits of the services, programs or activities of the university, or be subjected to discrimination by the university, as provided by the Americans with Disabilities Act of 1990 (ADA), the Americans with Disabilities Act Amendments of 2008 (ADAAA) and subsequent legislation.

Student Disability Services is located in the Office of Student Affairs, and is the designated campus department charged with the responsibility of reviewing and authorizing requests for reasonable accommodations based on a disability. It is the student’s responsibility to initiate such a request by contacting an employee of the Office of Student Affairs, in the Houston Harte University Center, Room 112, or contacting the department via email at ADA@angelo.edu. For more information about the application process and requirements, visit the [Student Disability Services website](#). The employee charged with the responsibility of reviewing and authorizing accommodation requests is:

Dallas Swafford  
Director of Student Disability Services  
Office of Student Affairs  
325-942-2047  
dallas.swafford@angelo.edu  
Houston Harte University Center, Room 112

**Incomplete Grade Policy**

It is policy that incomplete grades be reserved for student illness or personal misfortune. Please contact faculty if you have serious illness or a personal misfortune that would keep you from completing course work. Documentation may be required. See ASU Operating Policy 10.11 [Grading Procedures](#) for more information.

**Copyright Policy**

Students officially enrolled in this course should make only one printed copy of the given articles and/or chapters. You are expressly prohibited from distributing or reproducing any portion of course readings in printed or electronic form without written permission from the copyright holders or publishers.
Syllabus Changes

The faculty member reserves the option to make changes as necessary to this syllabus and the course content. If changes become necessary during this course, the faculty will notify students of such changes by email, course announcements and/or via a discussion board announcement. It is the student’s responsibility to look for such communications about the course on a daily basis.

Title IX at Angelo State University

Angelo State University is committed to providing and strengthening an educational, working, and living environment where students, faculty, staff, and visitors are free from sex discrimination of any kind. In accordance with Title VII, Title IX, the Violence Against Women Act (VAWA), the Campus Sexual Violence Elimination Act (SaVE), and other federal and state laws, the University prohibits discrimination based on sex, which includes pregnancy, and other types of Sexual Misconduct. Sexual Misconduct is a broad term encompassing all forms of gender-based harassment or discrimination and unwelcome behavior of a sexual nature. The term includes sexual harassment, nonconsensual sexual contact, nonconsensual sexual intercourse, sexual assault, sexual exploitation, stalking, public indecency, interpersonal violence (domestic violence or dating violence), sexual violence, and any other misconduct based on sex.

You are encouraged to report any incidents involving sexual misconduct to the Office of Title IX Compliance and the Director of Title IX Compliance/Title IX Coordinator, Michelle Miller, J.D. You may submit reports in the following manner:

Online: www.angelo.edu/incident-form
Face to face: Mayer Administration Building, Room 210
Phone: 325-942-2022
Email: michelle.miller@angelo.edu

Note, as a faculty member at Angelo State, I am a mandatory reporter and must report incidents involving sexual misconduct to the Title IX Coordinator. Should you wish to speak to someone in confidence about an issue, you may contact the University Counseling Center (325-942-2371), the 24-Hour Crisis Helpline (325-486-6345), or the University Health Clinic (325-942-2171).
For more information about resources related to sexual misconduct, Title IX, or Angelo State’s policy please visit: [www.angelo.edu/title-ix](http://www.angelo.edu/title-ix).

### PEDS EXAM 2: HHS 306

**Exam covers:**
- GI conditions  
- Immunological/infectious conditions  
- Cardiovascular conditions  
- Hematological Conditions  
- Neurological Conditions

*Complete endocrine/metabolic powerpoint and integumentary powerpoint in week 13 online after exam*

PEDS: Caring for the Child with an Endocrinological or Metabolic Condition — Ch 27  
Caring for the Child with an Integumentary Condition — Ch 30  
ATI-RN Nursing Care of Children 11.0-
Chapters 30, 31 (skin), 33, 34 (endocrine)

Endocrine Topics: Hypothyroidism / Hyperthyroidism / Type 1 & 2 Diabetes

Skin Topics: Acne Vulgaris / Impetigo / Cellulitis / HPV / Fungal Skin infections / Dermatitis / Infestations / animal bites / Tick borne diseases

Objectives:
1. Describe the anatomy, physiology, and developmental aspects of the endocrine system.
2. Examine the common pediatric conditions of the endocrine system.
3. Prioritize developmentally appropriate and holistic nursing care measures for common pediatric conditions of the endocrine system.
4. Explore diagnostic and laboratory testing and medications for common pediatric conditions of the endocrine system.
5. Develop teaching topics and discharge criteria for pediatric patients and their families who have common endocrine conditions.
6. Describe the anatomy, physiology, and normal function of the skin.
7. Examine the conditions related to various pediatric skin conditions.
8. Prioritize developmentally appropriate and holistic nursing care for various pediatric skin conditions.
9. Explore diagnostic and laboratory testing and medications for various pediatric skin conditions.
10. Develop teaching topics and discharge criteria for pediatric patients and their families who have various skin conditions.

Reminder: ATI practice exam A with active learning templates AND completion of ATI practice exam B (85% or higher 1st attempt) due by May 1st at 2359.

Peds: Caring for the Child with a Musculoskeletal Condition – Ch 29
Caring for the Child with a Genitourinary Condition – Ch 31

ATI-RN Nursing Care of Children 11.0-

Chapters 24-26 (GU), 27-29 (musculoskeletal)

Musculo. Topics: Club foot / Legg-calve Perthes / Slipped Capital Femoral Epiphysis (SCFE) / Fractures / Syndactyly & polydactyly / Osgood-Schlatter / Torticollis / osteomyelitis / Juvenile arthritis / Osteogenesis imperfect

GU Topics: Reproductive disorders affecting females & males / Dehydration / UTI / Vesicoureteral reflux / glomerulonephritis / nephrotic syndrome / Enuresis

Objectives:
1. Describe the anatomy, physiology, and developmental aspects of the musculoskeletal system.
2. Examine the conditions related to various pediatric musculoskeletal conditions.
3. Prioritize developmentally appropriate and holistic nursing care for pediatric musculoskeletal conditions.
4. Explore diagnostic and laboratory testing and medications for various pediatric musculoskeletal conditions.
Course Disclaimer

Although it is never the intention of course instructors to offend anyone, we find that on rare occasions students do become offended during discussions. The nature of the content of obstetric and pediatric nursing may lead to someone being offended by ideas read or presented, or someone’s ideas or opinions shared. Our purpose is to encourage you to consider, objectively, the viewpoints reflected in other’s works as you examine your own views, assumptions, and preconceptions in an attempt to formulate an informed, thoughtful, and defensible position. It is not the intent of this class to “indoctrinate” you into any particular point of view, persuade you to adopt any specific position, or even “challenge” your personal beliefs. Our hope is that, together, we can all remain as objective as possible and keep our discussions on a high intellectual plane.

Student Evaluation of Faculty and Course

Students in all programs are given the opportunity to evaluate their courses and the faculty who teach them. Evaluations are most helpful when they are honest, fair, constructive, and pertinent to the class, clinical experience, or course. Faculty value student evaluations, and use student suggestions in making modifications in courses, labs and clinical experiences.

Angelo State University uses the IDEA (Individual Development and Educational Assessment) system administered through Kansas State University for all course evaluations. The Office of Institutional Research and Assessment administers IDEA for the entire university, online and has established a policy whereby students can complete course evaluations free from coercion.

In order to ensure consistent, sufficient student feedback regarding programs and services provided for students by the Department of Nursing, as required by our accreditation agency, opportunities for students to evaluate both their courses and course instructors will be provided. Student opinions and feedback are valued and are part of each Course and Instructor’s evaluation process.

Areas on the IDEA evaluation include:
- Gaining a basic understanding of the subject (e.g., factual knowledge, methods, principles, generalizations, theories)
- Learning to apply course material (to improve thinking, problem solving, and decisions)
- Developing specific skills, competencies, and points of view needed by professionals in the field most closely related to this course
