- 1) Dr. Limbaugh, SACS liaison, introduced the committee and ex officio members and welcomed Mr. Reid, CFO, to the ASU campus.
- 2) Dr. Limbaugh provided a description of the team's purpose: internal review, engagement of campus in the process, oversight of the QEP, and arranging for the on-site visit. As part of the discussion, Dr. Carter, QEP director, reported status of the QEP; the project will complete phase 1 by May 2011 and is on time and on target.

- 4) Discussion of learning assessment initiatives: Dr. Rallo, president, asked if the issues with monitoring and 3.3.1.1 were under control. After discussion about the positive increase of assessment efforts in 2010 and 2011, he charged Dr. Blose, the provost, with setting up mandatory assessment training for academic department heads in order to assure full compliance by 2012. Training is to be scheduled for March 2011.
- 5) Dr. Limbaugh reported the status of the monitoring report and substantive change, both of which are due April 15, 2011: initial drafts of both have been written.
- 6) Dr. Limbaugh gave an update—who will attend, reservations—of plans for the SACS June orientation meeting in Atlanta.
- 7) Other announcements included information about the professional editor whose services ASU hopes to engage; about the status of the faculty representative to the Team; and about the schedule of Team meetings.
