

EXECUTIVE SUMMARY:

A highly motivated and detail-oriented individual with a deep understanding of homeland security, intelligence gathering, and terrorism prevention. Possessing advanced research, communication, and problem-solving skills. Experienced in developing and executing effective programs to support homeland security initiatives and operations and committed to providing a safe and secure environment for citizens and visitors alike.

Intelligence and Security: Occupational Experience.

July 2008 – December 2019: Owner/Consultant: National Security Initiative, LLC, Dallas, Texas.

Leading, directing, and supervising research team efforts to identify the strategic context of intelligence issues to ensure operational and tactical action congruency.

- Prepared and delivered senior staff intelligence briefings on AOI intelligence issues.
- Identification of strategic, operational, and tactical centers of gravity, critical vulnerabilities, and exploitable seams for targeting and exploitation, ensuring congruency of operational and tactical actions in strategic areas of interest (AOI).
- Guided research team efforts, analyzing threats for specific contingency operations and plans and processing, analyzing, and producing all-source intelligence in response to priority intelligence requirements.
- Provided subject matter expertise and product quality control in daily reports and long-term projects such as country studies, including coverage of counterterrorism, political, criminal, and economic elements.
- Mentored the intelligence production efforts of senior and mid-level all-source analysts and produced expert-level multi/single source Force Protection analysis and assessments

CURRENT POSITION: Adjunct Professor of Security Studies, Angelo State University (San Angelo, Texas, 2019-present)

Serving as a faculty member, researcher, subject-matter expert, and student research and writing mentor. Duties include delivering course content, incorporating program skills and competencies, and assessing learning outcomes for the Bachelor's program courses. Specific subjects include Critical Communications Infrastructure, Terrorism and Homeland Security, various Cyber Security topics, and Intelligence and Global Security.

Work with colleagues to develop or modify the curriculum for degree and certificate programs.. Assess and coach students on their progress and performance in and out of class. Advise students on educational objectives and career goals and how to achieve them.
