Professional Evaluations

T-TESS Evaluations

"Ms. Moss has developed a safe and inviting classroom atmosphere in which students are comfortable with taking risks without fear of judgement." Principal, Jim Burke - August 2019 walkthrough
"Mrs. Moss provides direct modeling and concrete examples to convey desired outcomes from her students. Students in this class self-monitor individually and also within their vocal group. They are active in their learning and take responsibility for accessing and evaluating actions and behaviors against the norms. Mrs. Moss clearly understands the content and structure of the discipline so that instruction can be presented multiple ways to differentiate for students who do not master learning when presented information is explained. Mrs. Moss challenges her students to think in complex ways. Mrs. Moss clearly has an in-depth knowledge of the structure of her content and the state standards so that she is able to sequence and segment instruction in ways that makes learning comprehensible for students." - Principal, Mrs. Elisha Reese, November 2019 observation
