BACKGROUND

My knowledge is broad: an interesting mix of business and wellness. After culinary school, my professional journey began working with event planning and high end catering companies in Los Angeles, CA and Dallas, TX. This evolved into venue and building management at the Historic Cactus Hotel in San Angelo, TX while creating my own yoga business. My yoga business has continued to thrive, even with my skills expanding to mineral management in the oil and gas industry. I look forward to seeking opportunities to learn more in this field!
