

CURRICULUM VITA

December 2020

Loren K. Ammerman

CURRENT POSITION:

C. J. "Red" Davidson Endowed University Professor of Biology
Department of Biology
ASU Station 10890
Angelo State University
San Angelo, Texas 76909
(325) 486-6643

HOME ADDRESS:

2842 Red Bluff Circle
San Angelo, Texas 76904

Email: loren.ammerman@angelo.edu

Web page: <https://www.angelo.edu/content/profiles/75-loren-k-ammerman>

EDUCATION:

Ph. D. in Zoology, 1993, **The University of Texas at Austin**

Dissertation Title: Examination of the relationships between Microchiroptera and Megachiroptera based on mitochondrial and nuclear ribosomal DNA sequences.

B. S. in Wildlife and Fisheries Science, Summa Cum Laude, 1987, **Texas A & M University**, College Station, Texas.

Also attended Austin College (1983-85), University of Oklahoma Biological Station (1985), and North Harris County College (1982-83)

TEACHING EXPERIENCE:

Professor at Angelo State University: Cell Biology, Molecular Biology, Natural History of Bats, General Zoology, Principles of Biology, Cancer Biology, Advanced Biology, Advanced Genetics, Molecular Systematics, Seminar in Biology, Graduate Seminar (2012 to present)

Associate/Assistant Professor at Angelo State University: Cell Biology, Human Biology, Man and the Environment, Advanced Genetics, Molecular Biology, Natural History of Bats, Seminar in Biology, Graduate Seminar, Advanced Biology, General Zoology, Principles of Biosystematics (2001 to 2012)

Instructor for Chautauqua summer workshop "Bats of Big Bend National Park" (July 2006)

Lecturer at University of Texas at Arlington: Cell and Molecular Biology, Introductory Biology, Comparative Vertebrate Anatomy, Natural History of Bats, Mammalogy, Zoology, and Introductory Biology lab supervisor (1994-2001)

Adjunct Assistant Professor at Texas Wesleyan University: Costa Rican Tropical Biology program: Field Biology and Contemporary Biology (1994-2000)

Instructor at Texas Wesleyan University for: Cell Biology, Anatomy and Physiology, Comparative Vertebrate Anatomy, Mammalogy and Ornithology, Vertebrate Field Zoology, General Zoology, Introductory Biology (1992-1994)

Assistant Instructor and **Teaching Assistant** at University of Texas at Austin for: Comparative Anatomy, Cell and Molecular Biology, Genetics, General Biology Laboratory, Non-major Biology, Vertebrate Natural History (1987-1992)

PUBLICATIONS — NON PEER-REVIEWED:

- Ammerman, L. K. 2019. *Leptonycteris nivalis*, pages 101-105 in *Texans on the Brink* (editors, Chapman, B.R. and Lutterschmidt, W. I.) Texas A&M University Press, College Station.
- U.S. Fish and Wildlife Service. 2018. Species status assessment report for the Mexican long-nosed bat (*Leptonycteris nivalis*), Version 1.1. December 2018. Albuquerque, NM. Prepared by Charles Herrmann, Ana C. Ibarra-Macias, Marisol Martínez-Bautista, Loren K. Ammerman, Emma Gomez Ruiz, and Kristen Lear.
- Ammerman, L. K., C. L. Hice, and D. J. Schmidly. 2012. *Bats of Texas*. Texas A&M Press, College Station.
- Ammerman, L. K. 2001. *Introductory Biology Lab Manual*, Third edition. Burgess International Group, Inc., Edina, Minnesota. 128 pp. (First edition in 1996, Second edition 1997)

GRANTS:

- Monitoring of Mexican Long-nosed Bats* (Bat Conservation International, Disney Foundation, \$8300, 2020-2021)
- PIT tag monitoring of Mexican Long-nosed Bats* (Bat Conservation International Gift (mini-grant), \$3500, April-August 2019)
- Genetic Analysis of Multiple Paternity in Red Bats* (ASU Faculty Research Enhancement Program grant, \$14,830, September 2017-August 2018)
- Binational Conservation of an Endangered Pollinator: Research, Protection, and Recovery for the Mexican Long-nosed Bat.* (contract with Bat Conservation International TPWD Section 6 funding, \$21,486 to ASU, April 2017)
- Status of Spotted Bats in West Texas Based on Echolocation Call Data,* (Research Enhancement Grant, \$12,325, Summer 2015)
- A Baseline Assessment of the Mammals, Reptiles, and Amphibians of Devil's River State Natural Area, South Unit,* (Texas Parks and Wildlife Department, Co-PIs Robert Dowler and Michael Dixon, \$43,299, December 2012-August 2015)
- Modernization and Digitization of the Angelo State Natural History Collections* (National Science Foundation, Co-PIs Bonnie Amos, Robert Dowler, Michael Dixon and Terry Maxwell, \$480,865, July 2012- May 2015)
- Molecular identification of unknown bat species from the Texas Department of State Health Services* (ASU Research Enhancement grant for \$11,000, Sept 2012)
- Defining species boundaries in *Myotis* bats using microsatellite DNA* (ASU Research Enhancement Grant for \$16,427, March 2011)
- Developing collaborative teaching/research programs with colleagues in Malaysia* (Faculty Development and Enrichment Grant for \$8220, Jan 2010)

- Census of the Endangered Mexican Long-nosed Bat in Big Bend National Park Using Thermal Imaging* (Research Enhancement Grant for \$5949, Summer 2009)
- Bats of Texas* (Faculty Innovation Grant for \$10,000, May 2008)
- Using DNA sequence data to determine relationships within the free-tailed bat family* (Faculty Innovation Grant for \$86,210, December 2007)
- Genomics Educational Matching Funds Grant for GenomeLab CEQ8000 Genetic Analyzer* (Beckman Coulter, Inc awarded \$50,000 in matching funds to ASU for purchase of this automated capillary electrophoresis system for DNA sequencing and fragment analysis, December 2007)
- Use of DNA fingerprinting technique to resolve conflict between datasets in Myotis bats* (Research Enhancement grant for \$9922, Spring 2007)
- Thermal cycling equipment for gene amplification and DNA sequencing* (Research Enrichment grant \$4995, Fall 2006)
- Tracking Andean speciation events in the free-tailed bats of eastern Ecuador* (President's Circle grant \$3000, Summer 2006)
- Genetic sampling of museum specimens* (Research Enrichment Grant \$1952, Fall 2006)
- Bat survey of Texas National Guard sites* (with Robert Dowler; contract with Texas National Guard for \$64,795)
- Travel grant to attend American Society of Mammalogists meeting in June 2005* (Annual fund/President's Circle grant \$2400)
- DNA sequence variation in the bonneted bat* (*Eumops glaucinus*) (Research Enhancement Grant for \$10,000 in 2005)
- Field survey of small and medium-sized mammals of the Rio Grande Corridor* (with Robert Dowler; subcontract with Sul Ross University from USDA grant, \$24,731 – 1 September 2004-31 August 2005; renewed for \$33,747 in 2006)
- Test of a new census method to count *Leptonycteris nivalis** (North American Bat Conservation Partnership grant for \$5,000 – June 2004-2006)
- A multi-gene approach to the phylogeny reconstruction of free-tailed bat genera* (Research Enhancement Grant for \$10,000 in 2002)

HONORS AND AWARDS:

- C. J. "Red" Davidson University Endowed Professor of Biology, August 2019
- Honorary Member, Texas Society of Mammalogists, February 2019
- Outstanding Woman Leader award, West Texas Association of Women in Science, April 2018
- TTU Chancellor's Council Distinguished Research Award, December 2010
- ASU President's award for Excellence in Research/Creative Endeavor, May 2010
- Research Associate appointment to The Museum, Texas Tech University
- Friends of the UTA Library Faculty Award \$500 (1999)
- Hartman Fellowship - University of Texas at Austin Department of Zoology \$1500 (1992)
- Texas Society of Mammalogists Award for best oral presentation \$100 (1992)
- Best poster presentation at 21st Bat Research Conference \$100 (1991)
- Temple Foundation Scholarship \$1500 (1983 and 1984)
- Gamma Delta Sigma, Phi Kappa Phi, and Beta Beta Beta Biological Honor Society

RESEARCH STUDENTS ADVISED:

Katie Holland – Adenovirus detection in Texas bats (undergraduate faculty-mentored grant recipient, Fall 2020-present)

Zoey Stormes – Screening of genetic markers to distinguish morphologically-similar species of cottontail rabbit (undergraduate faculty-mentored grant recipient, Spring 2020-present)

Miranda Perry – Phylogenetic effects on milk composition of Texas bat species (MS thesis student, graduated Spring 2020)

Virginia Jaquish – An investigation of *Agave* flower visitation by *Antrozous pallidus* in the Big Bend region of Texas (MS thesis student and graduate research fellow, graduated Summer 2019)

- Brent Wesley** – Identification of barcoding genes to distinguish species of *Agave* (undergraduate faculty-mentored grant recipient, graduated Spring 2019)
- Roxy Poursoushtari** – Genetic variation in endangered Mexican long-nosed bats (MS thesis student and graduate research fellow, graduated Spring 2019)
- Sydney Decker** – Phylogeography of Northern yellow bats (*Lasiurus intermedius*) (First-year research experience (FYRE) fellow and undergraduate faculty-mentored grant recipient and Honor's thesis, graduated Spring 2019)
- Sam Harrison** – Patterns of genetic diversity within Southern Yellow bats (*Lasiurus ega*) based on microsatellite analysis (Honor's thesis and faculty-mentored research grant recipient, graduated Spring 2018)
- Sam Harrison** – Microsatellite analysis of *Myotis ciliolabrum* and *Myotis californicus* (undergraduate research student, Spring 2017)
- Alex Shaffer** – Patterns of gene flow in *Spilogale putorius interrupta* based on microsatellite markers (MS thesis student co-advised with R. Dowler, graduated summer 2017)
- Katie Kuzdak** – Effects of drought conditions on the diet of insectivorous bat species: a molecular diet study (MS thesis student, graduated Fall 2017)
- Craig Tipton** - Occurrence of Eptesipox virus in Big Brown bats (*Eptesicus fuscus*). (undergraduate faculty-mentored grant recipient, graduated Spring 2016)
- Krysta Demere** – Molecular diet analysis of reproductive female American Parastrelles, *Parastrellus hesperus* (MS thesis student, graduated Spring 2016)
- Citlally Jimenez** – Identifying and characterizing roosts of southern and northern yellow bats (*Lasiurus ega* and *L. intermedius*), (MS thesis student, graduated Spring 2016)
- Aimee Denham** – Relationship between the extracellular matrix protein HAS2 and longevity in bat species (undergraduate faculty-mentored grant recipient and Honor's thesis project, graduated Spring 2015)
- Grayson Allred** – Bat activity at Devil's River State Natural Area, Big Satan Unit (MS thesis student co-advised with R. Dowler, graduated Fall 2016)
- Stephanie Martinez** – Annual and seasonal fluctuations in urban roost use by *Tadarida brasiliensis* (MS thesis student co-advised with R. Dowler, graduated Fall 2015)
- Erin Adams** – Cave use and migratory movements of Mexican long-nosed bats (*Leptonycteris nivalis*) (MS thesis student, graduated Fall 2015)
- Tom Horsley** – The ecological importance of three members of the genus *Artibeus* within the Iwokrama Forest in Guyana, South America (MS thesis student and Student Research Fellow, graduated Spring 2014)
- Laramie Lindsey** – Molecular systematics and genetic diversity within the genus *Molossus* (MS thesis student and Student Research Fellow, graduated Spring 2014)
- Alexis Mobley** – Characterization of p53 transcript variants expressed in bat species (undergraduate research, faculty mentored grant, Fall 2013-Spring 2014)
- Krysta Demere** – Investigation of bat populations and activity in northern Tom Green and southwestern Coke counties (undergraduate research, faculty mentored grant, May 2012-2013)
- Wes Brashear** – Genetic structure of a striped skunk population in an urban environment, (MS thesis student and Student Research Fellow, graduated Summer 2013), co-advised with R. Dowler.
- Candace Frerich** – Investigation of hAT and piggyBAC transposase activity in mouse eared bats (genus *Myotis*) (undergraduate research project and Student Research Fellow, Fall 2011)
- Sarah Bartlett** – Molecular systematics of bonneted bats (Molossidae: *Eumops*) based on mitochondrial and nuclear DNA sequences, (MS thesis project, Fall 2010- 2012 and Student Research Fellow, graduated Spring 2012)
- Krysta Demere** – Noteworthy county records for 14 bat species based on specimens submitted to the Texas Department of State Health Services (undergraduate research project, 2012)
- Pablo Rodriguez** – Phylogenetic relationship of six rare members of the family Vespertilionidae (Chiroptera) from Malaysian Borneo (MS thesis project and Student Research Fellow, graduated Spring 2013)
- Candace Frerich** – Developing a microsatellite protocol for use in *Myotis* bats (undergraduate research project, Fall 2010-Spring 2011)

- Marie Tipps** – Genetic and morphological variation in Townsend’s big-eared bat, *Corynorhinus townsendii*, in west Texas (Carr Research Scholar 2010-2011, MS thesis student, graduated Spring 2012)
- Andrea Lewis** – Molecular identification of bats submitted to the Texas Department of State Health Services (undergraduate research project, Fall 2010-Spring 2011)
- Sarah Bartlett** – Multi-gene phylogeny of *Eumops* species (undergraduate research project, Spring 2010)
- Jason Strickland** – Phylogeographic variation in the cottonmouth, *Agkistrodon piscivorus*, in Texas using nuclear AFLP markers and venom protein profiles (MS thesis project, co-advised with J. K. McCoy, graduated Spring 2011)
- Candace Frerich** – Genotyping isolates of the Bovine Viral Diarrheal Virus using DNA sequence of the 5’ UTR (undergraduate research project, Fall 2009-2010, Internship with Texas Vet Labs, San Angelo, TX)
- Marie Tipps** – A molecular approach to the phylogenetic position of *Cheiromeles* (Chiroptera: Molossidae) (Carr Research Scholar 2009-2010, undergraduate)
- Richard Dolman** – Molecular systematics of the genus *Nyctinomops* (Carr Research Scholar, MS thesis, graduated August 2009)
- Dana Lee** – Taxonomic status of *Sylvilagus robustus* as revealed by amplified fragment length polymorphisms (Carr Research Scholar, MS thesis project, graduated Spring 2009)
- Carson Brown** – Genetic population structure of *Leptonycteris nivalis*: Implications for the conservation of an endangered species (Carr Research Scholar, MS thesis project, graduated Spring 2008)
- Eeshita Dastidar** - Distribution of the SINE element VES in chiropteran families (Carr Research scholar) and Genetic sampling from museum specimens (undergraduate research, graduated Spring 2007)
- Adam Ferguson** - Molecular assessment of a community of African shrews (Soricimorpha: Crocidurinae) from west-central Africa (Carr Research Scholar, graduated Spring 2008)
- Gema Guerra** – Genetic variation in *Spilogale gracilis* (graduate research project, Spring 2006, MS thesis, graduated Spring 2008), co-advised with R. Dowler
- Garrett Merriman** – Primer design for nuclear introns of myelin basic protein and glial fibrillary acidic protein (undergraduate research project, Spring 2006)
- Courtney Cline** – Cloning and DNA sequencing of African shrews (undergraduate research project in Biochemistry, Spring 2005)
- Molly McDonough** – Genetic and morphological variation in Wagner’s bonneted bat, *Eumops glaucinus*, and its closest relative, *Eumops floridanus* (graduate research project, Spring 2005 and MS thesis, graduated Fall 2007)
- Amy Bishop** – Taxonomic affinity of the genus *Myopterus* based on ND1 sequences (undergraduate research project, Fall 2004)
- Dawn Weir** – Characterization of an enterotoxin A producing strain of coagulase negative *Staphylococcus* (MS thesis, graduated Spring 2006)
- Scott Clement**- Taxonomic affinities of endemic rodent species of the Galapagos Islands (MS thesis, coadvised with R. Dowler, graduated Fall 2004)
- Suzanne Tomlinson** - Enterotoxin A production by an atypical Staphylococcal isolate. (graduate research project, co-advised with Crosby Jones, Spring 2002-Spring 2004)
- Lisa Smith** - Investigation of DNA sequence errors among multiple cloned PCR products (undergraduate research project. Fall 2003-Spring 2004)
- Shirley Hammond** –Phylogenetic relationships among cockatoo genera using beta-fibrinogen intron 7 DNA sequence data (Fall 2003 to Spring 2004).
- Melanie Book and Sandy Bradstreet** – Cytochrome b variation in African shrews (undergraduate research project, Spring 2003 and Fall 2003)
- Amy Vestal** – Genetic variation among populations of the Davis Mountains cottontail rabbit, *Sylvilagus floridanus robustus*, in the mountains of Trans-Pecos, Texas. Carr Research Scholar, MS thesis student, co-advised with R. Dowler. Graduated Spring 2005)
- Anica Debelica** – Diet analysis of Big free-tailed bats in Big Bend National Park (undergraduate research project, Spring 2003)
- Jennifer Apodoca** – Molecular systematics of free-tailed bat genera using beta-fibrinogen DNA sequences (undergraduate research project Spring 2002-Spring 2003)
- Amanda Matthews** – Trophic structuring in two sympatric species of free-tailed bats (M.S. Thesis project, graduated Fall 2002)

Rogelio Rodriguez – Geographic variation and genetic substructuring of *Myotis californicus* and *Myotis ciliolabrum* (Chiroptera: Vespertilionidae) (M.S. Thesis project, graduated Fall 2002)

UNIVERSITY SERVICE:

- Institutional Animal Care and Use Committee, member (2020-present)
- Departmental Graduate Advisor, Department of Biology (2018-present)
- Curator of Frozen Tissues, Angelo State Natural History Collection
- Search Committee for Dean of the College of Graduate Studies (2018-19)
- Search Committee for tenure-track Microbiology position in Biology (2018-2019)
- Search Committee for Department Head, Biology (2017-2018)
- Signature Course Advisory Committee (2017)
- College of Sciences Tenure and Promotion Committee (2010-2011, 2013-present)
- College of Arts and Sciences Curriculum Committee (2012-present)
- Center for Innovation in Teaching and Research Advisory Council (2010-2011)
- International Education Committee member, Angelo State University (2007- present)
- Study Abroad Appeals Committee (2010-2011)
- University Curriculum Committee member, Angelo State University (2006-2008, 2011-2018)
- University Curriculum Committee, Chair, Angelo State University (2008-2011)
- College of Sciences Curriculum Committee member, Angelo State University (2007-2011)
- Health Professions Advisory Committee member, Angelo State University (2005-2007)
- Health Services Committee member, Angelo State University (2002)
- ASU Judicial Board (2004-2006)

PROFESSIONAL SERVICE:

- Institutional Biosafety Committee member with Advarra (April 2020-present)
- Managing Editor, *The Southwestern Naturalist* (2014-2017)
- Member, Student Awards Committee, North American Society for Bat Research (2012, 2018)
- Member, Board of Governors, Southwestern Association of Naturalists (2008-2011, 2018-2021)
- Member, Board of Trustees, Southwestern Association of Naturalists (2009-2015)
- Chair, Student Awards Committee, Southwestern Association of Naturalists (2009-2013)
- Secretary, Southwestern Association of Naturalists (2005-2008)
- Participant, North American Society for Bat Research, “Lunch with a Scientist” (2010, 2018)
- Past-President (2004-2005), Texas Society of Mammalogists
- Secretary-Treasurer, Texas Society of Mammalogists (2005-2015)
- Judge for Texas Tech Annual Biological Sciences Symposium (March 2012)
- Texas Society of Mammalogists Conservation Committee (Spring 1999-2001)
- Associate Editor for *Southwestern Naturalist* (2000-2003)
- Member of PhD advisory committees for Julie Parlos (Texas Tech University) and Dana Lee (Oklahoma State University)
- Reviewer for *Acta Chiropterologica*, *Australian Journal of Zoology*, *Journal of Mammalogy*, *Mammalian Biology*, *Journal of Heredity*, *Systematic Biology*, National Science Foundation, *The Southwestern Naturalist*, *Western North American Naturalist*, *Texas Journal of Science*, *Arkansas Journal of Science*, Texas Tech Publications, *Ecology and Evolution*, *Methods in Ecology and Evolution*.
- Editorial Assistant for Systematic Zoology (Biology) (1991-1992)
- Department representative to the Institutional Animal Care and Use Committee at UTA (1994 to 2001)
- Advisory Board member and workshop presenter for Expanding Your Horizons Conference in Science and Mathematics at Texas Wesleyan University (1995-2000)
- Regional and State Science Fair Judge (1991-2001)
- Texas Research Institute for Young Scholars (San Angelo ISD) – judged projects (February 2008)
- Workshop presenter 2009 and 2010 for Expanding Your Horizons STEM conference at ASU
- Workshop presenter 2016, 2017 and 2019 for Girl Scout STEM conference at ASU
