RESEARCH

Research Grant.: (2022) Fort Bend County Sheriff's Office.

2021 Racial Profiling and Traffic Stop Data Reporting Analysis/Study. Original grant awarded was \$25,000. Grant funds utilized to complete the research study was \$8,000.00. Examined traffic stop data from 1 January 2021 to 31 December 2021 from all Fort Bend County Sheriff deputies.

Research Cooperative: (2021-Current) Fort Bend Sheriff's Office.

Threat, Vulnerability, and Risk Assessment of Fort Bend County Infrastructure and Buildings. Research initiative between the Fort Bend County Sheriff's Office, faculty principal investigators, and Homeland Security graduate students of the Center for Security Studies and Criminal Justice at Angelo State University for the purpose of conducting a threat, vulnerability, and risk assessment of Fort Bend County government buildings. Student researchers are working in cooperation with ASU faculty and FBCSO personnel to present a Risk Assessment to county officials for future policy changes.

Research Grant.: (2020) Gulf States Regional Law Enforcement Technology Assistance Initiative. Waller County Sheriff's Office. *Office of Justice Programs, U.S. Department of Justice.* \$101,831.25. Secure smart phone technology will be used to communicate with law enforcement personnel so that violent crimes can be addressed in real time leading to faster response times and apprehensions of dangerous fugitives.

Research Project: (2016) Citizen Satisfaction and Contract Deputy Survey.

Distribution of Citizen Satisfaction and Staffing surveys on three occasions to random households in Precinct 2 of Harris County, Texas. Survey results were analyzed and a final report was created for presentation to Harris County and Constable officials.

Research Project: (2016) Cold Case Criminal Investigations: A Exploratory Research Study.

Research investigators will review complex criminal investigations to identify forensic science techniques and tests, as well as variables to include criminal associations, weapons used, and the circumstances surrounding a violent death, sexual assault, or terrorist activity to establish further research into best practices and academic and practical lessons and training for practitioners and researchers.

Research Project. (2016) Perceptions of capital punishment among college students: What college students believe about ringing the final bell.

Students at California State University, Sacramento were surveyed as to their perceptions of capital punishment and how their beliefs might affect future laws surrounding capital punishment. Two universities in Texas and one in Tennessee were included in the survey to create a comparative analysis of student opinions.

Research Project: (2015) OTM: A part of future Homeland Security Education.

A faculty/graduate student project examining Customs and Border Protection apprehensions of Other than Mexican illegal immigrants and developing prediction models through statistical analyses of various effects on immigration routes and numbers of immigrants. Project utilizes over 10 million data points to develop predictive models.

Research Project. (2015) Triple frontera: Security in the triangle.

Research project developed examining the Triple Frontier as was requested by the CBP in regards to potential security issues facing agents in the Brazil, Paraguay, and Argentina triangle. A second request was received to further the research to discuss current region threats. Project was utilized in developing intelligence on the safety/security protocol of front-line Customs and Border Protection agents.

Faculty Research Enhancement Program Grant.

Cold Case Squads: Using Factor Analysis to Identify Clearance Variables for Violent

Crimes. Angelo State University. \$14,920.

Research Project. College of Criminal Justice. Sam Houston State University, 2005-2006.

Developed and wrote pretest/post-test training program for the Houston Police Department's Mediation Training Program.

Compiled, analyzed, and wrote final report for the Bryan Police Department's Citizen Satisfaction Survey.

Research Project. College of Criminal Justice. Sam Houston State University, 2006-2007.

The project entailed examining crime trends in the 35 largest police departments in Texas and the cities in Texas that use the Compstat program in the attempt to identify problematic areas.

Research Project. College of Criminal Justice. Sam Houston State University, 2006-2007.

The project consisted of a comparative analysis of juvenile racial trends and arrest counts and rates from 1990 to 2004 in the 35 largest cities in Texas. UCR arrest data was utilized for the statistical measures taken.

RESEARCH INTERESTS

- Legal Aspects and Law
- Natural Disasters and Exogenous Shock Hypothesis
- Racial Threat Theory and Crime
- Policing
- Environmental Influences on Law Enforcement
- Homeland Security and Law Enforcement

PRESENTATIONS AND ATTENDANCE AT PROFESSIONAL MEETINGS

9TH Annual Maritime Security West Conference. San Diego, CA., March 2022.

Juvenile Offending and Racial Trends: A Comparative Analysis of Juvenile Offenders, Age, and Crime. International Organization of Social Sciences, Boston MA., July 2018.
