Roommate Selection Guide

Step One: Log-in to MyHousing and Select “Roommates/Suitemates”.
Step Two: Select the appropriate academic term.

Step Three: Search for your roommate by name.
Step Four: Select the “Request This Student” button.
Note: You can also use the “Advanced Roommate Search” to filter students by criteria you specify (for example, filter by bedtime or cleanliness).

Both students must request each other. If one student doesn’t request the other, the system will not match them as roommates. Only students who have applied for housing during the same selection time-frame will be able to request each other. (Please see the student assignment timeline for reference).
