Degree Information

Blocks

Each section in a Degree Works audit is called a “Block.” Each block header will contain a title for the block and also display specific course information for that block, such as credits required, credits applied, and classes applied. The block header will also contain a status of all requirements within the block.

Degree Requirements – This is the main block that houses all of the global rules that apply to all other blocks within the audit. This block will never have the “Complete” status until all other blocks have been completed. Within this block you will also find “Unmet Conditions” which are requirements that must be met in order to graduate (residency requirement, total credits needed, etc.). Underneath the title of this block are the total credits required to graduate and the total credits you have applied towards graduation as well as the student’s catalog year.
